

COMMAND & CONQUER MAP PACK I

Assembled by Chris Dickens
(Kali: AlexKidd)

I don't know about you, but I love Command & Conquer. Especially multiplayer games. But the packaged missions start getting boring after a while, so my search for extended gameplay led me to a favorite site on the World Wide Web called the Temple of the Conquerer (address below) initially contained about four new multiplayer levels. Needless to say, C&C fever was on and only weeks later it tripled to over a dozen!

Using all the available utilities at the time to shuffle the missions in and out of GENERAL.MIX got out of hand, so I took it upon myself to collect all these missions and put them into a new "Map Pack" so that everyone can have uniform setups for later upgrades to add additional map packs.

INSTALLATION

Here's the great thing about it all, installation is a piece of cake.

1. Copy C&C-MP1.ZIP to your game directory (C:\C&C)
2. Unzip the archive (PKUNZIP C&C_MP1)
3. Your in business!

THE CONTENTS & CREDITS

These missions were NOT created by myself. They are the work of many die-hard Command & Conquer disciples! All included missions include their corresponding theme .TXT file tucked away nicely in MP1INFO.ZIP. Also brief credit is given here.
