Misc. Author Info : anyone who says warcraft 2 is better than c&c needs to get a grip on reality!
Machine : Pentium 75mhz
Description : This is my first Scenario.It involves destroying various Tech Centers and Bio Research Labs so that NOD can't develop very deadly weapons.There are 6 scenarios.The sroyline is that Kane has decided to research advanced weaponry such as a Biological Weapon! If he succeeds your men will die horrible deaths and so will all GDI soldiers if you don't complete these set of missions!

Intelligence : NOD is researching dangerous weapons destroy Tech Centers in the given areas to allow us our advantage over NOD!

Briefing : OK You must destroy these Tech Centers to allow us the advantage failing is unacceptable and unforgivable!

Additional Credits to : To Andrew Giffin,George Heeres,Richard Heesbenand anyone else i forgot.
