Game Play

With each timed, or non-timed (registered version-only) round you will try to shoot down as many male/cock Pheasant as possible. Your shotgun holds 3 shells maximum. The Pheasant will fly out of the brush after your dog barks and kicks them up. The Pheasant will fly off to the right or the left. Some Pheasant are worth more points based on thier current flying speed. Each Pheasant will have a different speed...faster Pheasant are worth 10 points, and some Pheasant will only be worth 5 points.

Your dog will kick up the Pheasant within your current viewing area. You may want to stay towards the middle of the viewing area to give yourself maximum distance from the edges as to shoot the birds before they fly off the screen.

Try NOT to shoot the female/hen Pheasant as they reduce your score by 25 points !!!
The female/hen Pheasant are not marked with the ring or colors of the male/cock Pheasant.

See just how many Pheasant cocks you can down in the least amount of time !
Have competition with friends and family based on timed games to see who is the hottest hunter !

Good Luck and Happy Hunting !!!
