WinFish 1.0 recommendations and requirements.

WinFish requires:

 MS Windows 3.0 w/multimedia extensions *or* MS Windows 3.1.
 3MB RAM
 16 color 640x480 VGA

We recommend the following for best performance:

MS Windows 3.1
Enhanced Mode
4+ MB RAM
256 color 640x480, 800x600 or 1024x768 Graphics (Accelerated helps)

WinFish 1.0 known compatability problems:

Display problems with Dell computers that use Western Digital display drivers at 1024x768
 (try 800x600 or 640x480... both of these work)

Display problems will occur if WinFish is run with other graphics programs that load a pallette
different than the one in WinFish. If you notice a pallette color shift, end the game and close
other applications then reload WinFish.
