## 1.19 Information

### The Black Book Project

At first I only planned to make The Black Book a adresslist to all my contacts so I'd have all adds in one place but as the list was completed I started to think about a larger list.

"Would it not be practical to be able to find ANY scener at one place? Not having to look through various mags and spreadsheets."

I asked myself that very question and I liked the idea. But who would be willing to do something like that? Since noone already have made such a list I decided that my Black Book was going to be that list. As you may notice some dudes on this list are NOT swappers so they may not answer your letter. Thoose with "4 Swapping" are swappers though and they should answer your letter to them. Some of them however have not replied to mine and thoose scumbags are marked with a "Reply? Not this guy!" underneath.

The Black Book is Swappware. The Swappware concept goes like this, if you like the prod you must start swapping with the author ( Me ).

Planned modifications:

E-Mail adverts: Already included

Coded: Work in progress.

Divided into groups: Work in progress.
