Chapter 1

APrint

1.1 APrint.guide

"APrint (AddressPrint)" (V3.0)

20.12.95

Copyright (C) 1993-1995 by Falk Zühlsdorff

1. General

Read me first Copyright APrint needs Install History Thanx

2. Menu from mainwindow

Project Data Print Printer-Prefs

3. Windows

Main Editor Choice

4. Misc

Tooltypes Bugs

1.2 APrint/Read me first

"APrint" is, I think, the best address-database and address-printing-office.
The meaning from APrint is:

- manage your addresses fast and simple
 - functions you never need (you find in other programs) are not included
 - print address-labels for your correspondence (snail-mail) with
 dispatch, sender ...
 - you can also print labels continuous or on pages (nice for
 laser-printers).
 - english and german version (use tooltypes)
-

- some good tricks you can find in the help-requesters
- if you don't need the guide the program is good
(and I think you needn't the guide...)
- ...

1.3 APrint/Copyright

"APrint" is SHARWARE. (C) & (P) by Falk Zühlsdorff 1993-1995.

All rights reserved. No liability for errors using APrint.

Germany: 8 DM incl. P&P
World: 10 DM incl. P&P
Internet: 5 DM (send you keyfile with uuencode)

Germany

Email: ai036@rz.tu-ilmenau.de
WWW: <http://www.rz.tu-ilmenau.de/~ai036>

Payment: cash (best) / german stamps / money order (-> post-office) /
eurocheques (2-3 weeks waiting)

Please use your registration-card !

Updates: - With the registration you get your personal keyfile
(name and userid included).

- Then you can get all new versions from your software-dealer
you found first version or you can find them on aminet (biz/dbase)
(you need personal keyfile).

Demo: - you can't save data

Reqtools.library is (c) by Nico François / Magnus Holmgren
xpkmaster.library is (c) by U.D. Müller
Amiga / Installer / Workbench / Intuition is (c) by Escom AG.

1.4 APrint/APrint needs

- needs OS2.x (Kickstart V37.175 or higher).
 - "reqtools.library" / "xpkmaster.library" / "compressors/xpkENCO.library".
-

1.5 APrint/Install

use the script "Install" (using Installer),

or copy all libraries to LIBS: or LIBS:compressors/ and all other files you need to your private directory.

needs also:

```
L:PortHandler
Devs:printer.device
Devs:parallel.device or Devs:serial.device
Devs:Printer/...
```

1.6 APrint/History

V1.1 (03.11.93): first german fd-version

...

V2.22 (03.01.95): last german fd-version

V3.0 (20.12.95): the first international sw-version, with listviews...

1.7 APrint/Thanx

greetings and thanks to:

- C= and Amiga Technologie for the AMIGA
- dopW (J.Tröger)
- RøgerSøft (M.Klein)
- BømberSøft (B.Schotte)
- A.Tetzl
- S.Erbert
- Janosh (J.Stötzer)
- Diesel (B.Künnen)
- Rascal (F.Schmal)
- FlipFlop (G.Frank)
- Wurzelsepp (A.Neumann)
- all PURITY-Authors
- ...

1.8 APrint/Menu/Project

1.15 APrint/Misc/Tooltypes

You can use 4 tooltypes now:

TEMP_PATH the temporal path (encode/decode data)

like: TEMP_PATH=T:

DATA_PATH data path (filerequester starts with this path)

like DATA_PATH=DH0:APrintData/

GERMAN 2 languages are available, english and german.

like GERMAN=YES or NO

START_AS_APPICON Starts APrint with appicon. (If you use WBStartup
add "DONOTWAIT" to the tooltypes)

like START_AS_APPICON=YES or NO

1.16 APrint/Misc/Bugs

If you find bugs or you have some ideas write them to me (use email if possible). Don't forget adding your hardware-configuration to the bugreport...

Thanx.
