1.3 Technical Support

Before you call for help:

1. Check the Troubleshooting section first to see if your question is already answered.
2. Know the version of PageStream installed. (Check the Navigator.)
3. Know your registration number. (Choose Project/About.)
4. Know which Amiga model you have, and which version of the operating system is installed.

If you received a bad disk, call sales for a replacement disk. We will replace bad disks within 90 days of purchase.

90 Days Free Support

Your purchase of PageStream3 includes 90 days of free technical support by phone from the date of your first phone call. This is designed to help you install your program and to resolve any problems you have while getting started.

Call 314-256-9333 to use your 90 days of free support. Note: you cannot call the toll-free number for free support. That number is reserved for priority access for customers paying for technical support.

You MUST be registered to use your free 90 days of technical support. If you have not sent in your registration card, you must do so before calling for help.

Free Mail Support

Mail or fax your questions to us and we will mail you answers. (Our technical support department will not fax replies unless you have purchased the Paid Annual Support pport plan.)

Soft-Logik Publishing Corporation

Include the information requested in the 'Before you call' section above.

Free Online Support

Using a modem for technical support is a cost-effective means of getting your questions answered. You can post a question and receive a reply within a day or even a few hours. Patches to the latest version of PageStream3 are made available online for you to download.

We recommend the GENie network for technical support. Soft-Logik technical support representatives answer questions on GENie each business day.

If you are not a GENie user and you live in the USA or Canada, here is how to join:

1. Set your communications software for half duplex (local echo) at 2400 baud (9600 baud access is available after you signup).
2. Dial toll free: 1-800-638-8369 in the United States or Canada.
3. Enter JOINGENIE at the prompt and then press Return.
4. When asked for your special offer code, enter PAJ528 and then press Return.
5. Have a major credit card ready. In the United States, you may also use your checking account number. (There is a \$2.00 monthly fee for all checking accounts.) In Canada, VISA and MasterCard only.

For more information, call 1-800-638-9636 from 9am to midnight Eastern time, Monday to Friday, and from noon to 8pm on Saturday or Sunday.

Once you have logged on to GENie as a validated member and are at the top prompt, type SOFTLOGIK (or move 385).

On CompuServe, type GO AMIGAVEN for support. On Internet, post a message in comp.sys.amiga.applications or email tech@slpc.com. (Patches are available on Aminet in biz\patch.) On Portal, support is provided by non-Soft-Logik employees; type GO SOFTLOGIK.

Paid Annual Support

If you are a desktop publishing professional, you know how frustrating it can be to need an answer and not have anyone to turn to. With the Soft-Logik Annual Support plan, help will only be a toll-free phone call away. For a low annual charge, Soft-Logik Annual Support provides unlimited toll-free support for one user. It's like having your own consulting service on hand!

Call 1-800-829-5816 toll-free for Paid Annual Support, 314-256-9333 if you live outside the United States or Canada.

If all our representatives are busy, we'll call you back!

Fax us your questions, we'll fax you answers---fax 314-256-7773.

An additional 25% discount off the price of new Soft-Logik releases.

An additional 25% discount off the price of major updates.

Free minor updates (3.0g, 3.0h...) sent automatically.

\$149 per year for each Soft-Logik application.

Paid Per Call Support

Not everybody needs the benefits of the Annual Support plan, so it may be more cost-effective for you to pay for 15 minutes of technical support at a time. If your question is short, you can ask additional questions up to the 15 minute per call maximum. If your problem takes longer than 15 minutes to solve, or if it requires follow-up calls, you'll still only be charged a single flat fee.

Call 1-800-829-5816 toll-free for Paid Per Call Support, 314-256-9333 if you live outside the United States or Canada.

\$25 per problem resolution; 15 minute maximum for multiple questions.

VISA, MasterCard, Discover or American Express card required.

Software License

The purchaser of this product is licensed to duplicate and/or store the software program for the use of the purchaser on one computer at one time. The unauthorized duplication and/or storage of this product in any storage medium is illegal and is prohibited by federal and international laws. Reproduction of PageStream for the use of others or for installation on more than one computer constitutes software piracy, a criminal offense.

Contact the Sales department for information on site licenses and dealer copies.

Transfer of Software License

There is only one software license and registration number per copy of PageStream. Upgrades to the program are considered the same program for legal purposes. If you sell your copy of PageStream you are selling the software license and registration number. You cannot sell your previous version of PageStream and keep the latest version because there is only one software license.

Upgrading

Soft-Logik regularly upgrades PageStream. By immediately returning your registration card you will enable Soft-Logik to keep you aware of the latest releases. Soft-Logik reserves the right to charge a processing fee for maintenance upgrades and an upgrade fee for major upgrades.

Warranty

Soft-Logik Publishing Corporation makes no warranties, either express or implied, regarding the enclosed computer software package, its merchantability or its fitness for any particular purpose. The exclusion of implied warranties is not permitted by some states or countries so the above exclusion may not apply to you. This warranty provides you with specific legal rights. There may be other rights that you have which vary among states and countries.

Soft-Logik Publishing Corporation warrants the magnetic media to be free from physical defects for 90 days after purchase. Soft-Logik will replace the disks free of charge should they fail within this time. Every effort has been made to ensure the accuracy of this manual. Because PageStream is constantly being improved, Soft-Logik cannot guarantee its accuracy after publication and disclaims liability for changes, errors and omissions, or damages resulting therefrom.
