1.2 Copyright

This program is freely distributable, but also © by Michael Bauer. It may be copied as long as no more than a nominal fee is charged to cover time and copying costs. Permission is granted for CDs made by Urban Dominik Mueller, Fred Fish, Danny Amor and SaarAG.

This program uses triton.library, which is Copyright © Stefan Zeiger.

If you like this program, I'd like to encourage you, to leave me a note. This will motivate me to improve this little program ;c)

1.3 Introduction

I've started to write this program a little while ago, because I wanted to try out Triton. On the other hand, I was bored by the original Prefs program.

1.4 Usage

There's not much to say. The usage is like the original program, except for some things that are not yet implemented (TODO).

1.5 Todo

- There are no shell arguments / Tooltypes yet.
- The 'Save Icon' option is missing

1.6 How to contact me

Michael Bauer
Hegelstr. 27
72072 Tuebingen
Germany

E-Mail: michael.bauer@zdv.uni-tuebingen.de
or u195305@pluto.rz.fh-reutlingen.de

IRC: Gutgolf@#amigager

1.7 Acknowledgment

Thanks must go to: (there's no explicit order !!!) ;c)

- Gwar, Schweisser, X-Cops, Faith no more, Colloseum
for the soundtrack while writing this stuff ;c)
- Dietmar Eilert (GoldED rulez)
- Matt Dilllon (Dice)
- Jochen Wiedmann

I've used Flexcat for the catalogs

- Stefan Zeiger

Triton is pretty nice

- Volker "Zipperpig" Graf, Danny Amor, Jan Freuer, ...
-

I don't know why ;c)

- All the other guys and girls at #amiga and #amigager

...

1.8 Installation

Sorry, I'm too lazy to write an Installerscript now.

You'll need to install the 'triton.library', e.g by starting the script in the distribution directory.

Perhaps you'd like to install the catalog file.

Copy the font program e.g to Sys:Prefs/
