EXPERT SOFTWARE

TO ORDER CALL

1-800-759-2562

Dear Loyal Customer,

We started our software business in 1982, when home computers were a novelty. Today, they're a necessity. Technology is moving at warp speed; but one thing has-n't changed—our commitment to you. We bring you tools to make your office more productive, your leisure time more fun, and your home life more enjoyable. Expert Software wants to be your *first* software source.

This catalog represents our commitment to changing technologies. The majority of our titles are available on diskette or CD-ROM. Many of our old favorites have been updated to give you more of what you like best. And of course, all of our software titles are available at a price that will expand your software library without crashing your budget.

We *listen* to you, and respond to your needs. The results are a wider variety of software, with better features, and more value for your dollar.

Thank you for your business. Browse the catalog and let us hear from you!

Sincerely,

Ken & Sue Currier

Championship Chess™

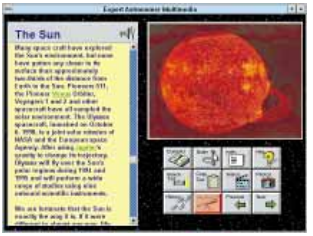
Astronomer™

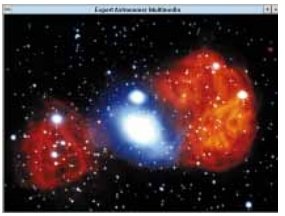
Explore the Night Sky on your PC!



300 informative text articles written by NASA, the Jet Propulsion Laboratory, the Astronomical Society of the Pacific, Science Writer Philip Teece and others. Click on key words or pictures to jump to hypertext articles.

The control buttons help you navigate through the wealth of information. "History" keeps a log of what you've viewed so that you can jump back to any topic. Press the "Guide" button for a tutorial and overview.

400 pictures of solar system and deep space objects. Just click on a picture for a full screen view or click the "Sky View" button to automatically find the object as it would appear in your backyard.

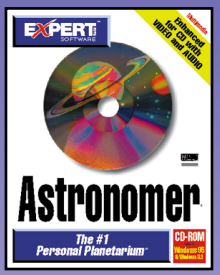


Learn about our Solar System:

- Relive Neil Armstrong's first steps on the moon.
- Take an aerial tour on spacecraft Magellan over the mountain ranges of Venus.
- Fly through the rings of Saturn from the Voyager spacecraft's perspective.
- Witness a hurricane over 100,000 miles wide -- the Great Red Spot of Jupiter.

Explore Deep Space:

- Learn what scientists know about black holes and white dwarfs.
- Join the search for extraterrestrial intelligence.
- Experience the power of the Supernova 1987a -- more powerful than the sun.
- Breathtaking pictures of the Horsehead Nebula, Stephan's Quintet, the Sombrero Galaxy, and many more.



Unlock and explore the mysteries of the Universe with your personal planetarium. Eight specialized tools allow you to quickly search for conjunctions, eclipses and other events. View more than 10,000 stars, planets, and galaxies.

Do-It-Yourself Lawyer™

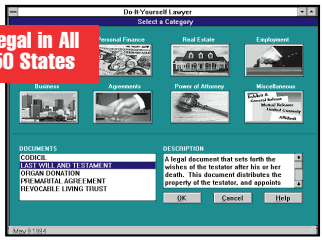
Quickly Create Ironclad Legal Documents to protect your most precious assets!

Expert Do-It-Yourself Lawyer provides you with over 65 common legal documents that you can create in the privacy of your own home, without the costly services of an attorney.

Easy to use! To complete a form, just type answers to simple questions. Plain-English definitions and real-life examples help you accurately answer the questions.

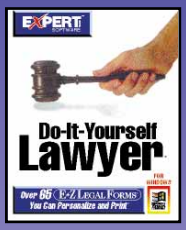
Published in cooperation with **E-Z Legal Forms** - the nation's largest publisher of self-help legal products - each document has been extensively reviewed by a panel of attorneys and reflects the latest changes in state laws.

Legal in All 50 States



System Requirements: You need a 386DX or higher DOS-compatible PC with DOS 3.3 or higher. Microsoft® Windows® 3.1 or later including Windows® 95. (SHARE.EXE must be running on your system.) VGA or SVGA. 4MB of RAM (8MB recommended). A 1.44 MB floppy drive. A hard drive with at least 6MB available. A Windows-supported mouse and printer.

$14.95



Choose from over 66 documents. "Interviewer" feature guides you through each document.

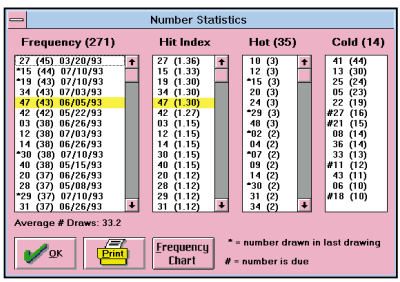
order # 5027 — 3.5 DISK VERSION

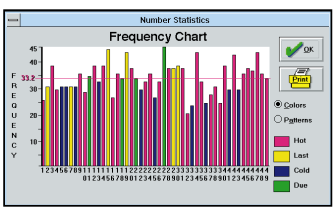
Lottery™

Create Your Own System to Beat the Odds!

Analyze winning number trends in over 10 different ways, including Hit/Miss Charts, Hit Sequence Display, Odd/Even Analysis and more.

In this lottery example, the number 47 has appeared 43 times in the past 271 games.





The Hit Index (1.30 in parentheses) shows that the number 47 has been hitting 30% more frequently than average.

System Requirements: You need a 386DX or higher DOS-compatible PC with DOS 3.3 or higher. Microsoft® Windows® 3.0 or later including Windows® 95. 4MB of RAM (8MB recommended). VGA or SVGA. A CD-ROM drive or 1.44MB floppy drive. A hard drive with at least 3MB available. A Windows-supported mouse and printer.

$14.95

Create your own system to beat the odds. Includes information on most state lotteries.

Over 120 high quality, True Type fonts. You'll have the right typeface for every job.

Fonts™

120 TrueType Fonts for Great Looking Documents!

Expert Fonts is a selection of **120** Serif, Sans Serif, Script and Decorative fonts, carefully chosen so that you will have the right typeface for every job.

Dress up your business or personal writing with these True Type fonts for Windows 3.1 or higher. The fonts are WYSIWYG (what you see is what you get) and Windows automatically scales these beautifully designed fonts from 1 to 999 points without distortion or "jaggies."

Just run the Install program. The typefaces will then automatically appear on the font lists in all your Windows applications.

Easy to install, fun to use, and a necessity for every Windows user, Expert Fonts for Windows is the perfect all-around font collection.
