Other great Web Graphics plug-ins from BoxTop Software, Inc. to compliment ProJPEG.

Since 1995, BoxTop Software, Inc. has done one thing and done it well. That thing we do is making great Web graphics tools, and we've rolled out a bunch over the years. All are tools that can save you time, improve the quality of your work, and put money in your pockets. A number of these great tools are Photoshop plug-ins made to compliment ProJPEG.

To purchase any of these great tools, visit the BoxTop Software, Inc. Web site to purchase on-line, or call 662-263-5410 9 AM - 6 PM, M - F Central Standard Time.

PhotoGIF

PhotoGIF is an award-winning Adobe Photoshop plug-in that provide unsurpassed capabilities for producing highly optimized GIF images and editing GIF animations within Photoshop, with minimum possible effort for maximum results. Using PhotoGIF is as easy as saving a file, and with PhotoGIF's intuitive, interactive interface that provides constant feedback, even the most novice of users become instant masters of Web graphics.

"Thanks for making PhotoGIF and ProJPEG . They save my life almost every day." - Chris Ouellette

"I don't know how I'd live without PhotoGIF -- without question it is the best plug-in available for Photoshop!" - David A. Padfield

"Your products kick some real butt! I have not ever used better GIF tools than PhotoGIF and GIFmation; the color management and compression is simply phenomenal." - Anthony Hill Simone

"I continually recommend ProJPEG and especially PhotoGIF to anyone I know or come in contact with who does Web design, whether they be beginner, novice, or expert. They are the two add-on tools I use most when creating sites, and are exceptionally better than the standard GIF and JPEG plug-ins that ship with Photoshop. Keep up the good work." - Mark Bult

PhotoGIF is available from BoxTop Software, Inc. for \$69.95 individually, and as part of the BoxTop Super Bundle, featuring all BoxTop Tools at half price savings of \$134.95.

ImageVice

ImageVice is an award-winning color reduction filter for Adobe Photoshop presenting designers with a new technology that enables common multimedia format files, such as GIF, PICT, BMP, and PNG, to be made up to 70% smaller than previously possible.

ImageVice provides powerful and flexible color reduction for the best possible compression and the best possible image quality in multimedia images, separate from any specific format, making it an ideal tool for high-end, hands-on optimization of size-critical multimedia files.

"Let me say that I LOVE ImageVice. Talk about speed savings. I smashed a banner from 13k to 3k with no quality loss! I swoon. I've even had some graphics come out measured in bytes. I swoon again!" - Raquel Stewart

"Just had the chance to put your new ImageVice demo through it's paces. AWESOME!! ImageVice did a better job of dithering the colors and reducing palette size than I had been able to manually editing the color table, and in less time." - Bill Martin

"I just wanted to say thank you SO MUCH for ImageVice. It is truly a godsend. I've already used it on all of the images on our web site and it has dramatically decreased the load time. The images were all about 50% smaller than the original gifs." - Daniel Blackburn

ImageVice is available from BoxTop Software, Inc. for \$49.95 individually, and as part of the BoxTop Super Bundle, featuring all BoxTop Tools at half price savings of \$134.95.

ColorSafe

ColorSafe is a filter plug-in for Adobe Photoshop that provides fully-interactive color pickers for the easy creation of almost limitless 'hybrid' colors from the 216 colors in the Web safe palette. A hybrid color is formed by combining four pixels of two different colors from the Web safe palette together in an exact ordered pattern to create a third visually distinct color. With ColorSafe any color is Web safe.

"I used ColorSafe and DitherBox side by side this weekend. ColorSafe CONSISTENTLY outperformed DitherBox. Period. It's initial color matching was much more accurate!" - George Napier

"Congratulations on your new product, ColorSafe. It really is indispensable." - John M. Knapp

"Take away my ColorSafe and my ProJPEG, and I quit the whole business." - Jill Morton

ColorSafe is available from BoxTop Software, Inc. for \$49.95 individually, and as part of the BoxTop Super Bundle, featuring all BoxTop Tools at half price savings of \$134.95.
