[www.freeverse.com](http://www.freeverse.com)

This game is being distributed as Shareware. That means no middlemen, no deceptive packaging and no aloof company to deal with. When you order this game you are ordering directly from the people who made it.

If you like this software and think you will keep it on your computer, then you are obligated to purchase it. The cost is only \$19.95. With your order you will receive a personal [code](#) which you can use to give **HEARTS DELUXE** highly skilled opponents.

If you would like to be mailed a CD-ROM version that comes with extra sets of opponents, the latest version of Hearts as well as the shareware versions of some of our other programs it's only an additional \$10. This version makes a good gift or just for those people who want the "deluxe" Hearts Deluxe version.
