

Welcome to HelpColr!

This file describes how to get HelpColr up and running. To read more information about how to use HelpColr, please refer to the HELPCOLR.HLP file included. To set up HelpColr, proceed with the following steps:

1. Create a HELPCOLR directory on your hard drive.
2. Copy HELPCOLR.EXE and HELPCOLR.HLP into the HELPCOLR directory.
3. Copy VBRUN300.DLL into the your Windows system directory.
4. Add a Program Item for HelpColr to your favorite Program Group.

Now you are set to run HelpColr! Enjoy!
