

**#26 CLEAR VARIABLE**

Written by Todd Carper

Published Date December 14, 1987

---

CLEAR VARIABLE will not clear local variables.

---

The **CLEAR VARIABLE**(*stexpr*) command is only valid for global variables. Local variables are cleared by 4th Dimension when leaving the procedure in which they were defined.

Valid:

**CLEAR VARIABLE**("MyVar")

Not Valid:

**CLEAR VARIABLE**("\$MyVar")
