MacMan

A Help Database For Macintosh Programmers
Based On Inside Macintosh

Dear User:

  Enclosed you find a *single sided* disk (400K) containing the following files :

  - MacMan   : The application.
  - MacManFile : A desk accessory file containing the DA MacMan.
  - MMIndex   : The index fot the database.
  - Packit.pit   : Packed database file (You need to unpack it)
  - PrintMe   : This document.

MacMan Installation :

 1. On A MacPlus :

   - Have a double sided disk call it MacMan+:

    1. Copy Packit.pit and Packit III to MacMan+ disk.
    2. Double click packit.pit then choose save, the file called Manual
       will be generated.
    3. Erase Packit.pit and Packit III leaving Manual only on MacMan+.
    4. Copy the system folder to MacMan+ disk.
    5. Copy the files MacMan, MMIndex, and MacManFile to
       along with Edit or Editor Application to MacMan+ disk.
    6. Using DA/Font Mover install MacMan on your system.
    7. If using HFS, move MacMan, MMIndex, and Manual to your
       system folder.
    8. Save your original MacMan disk.

 2. On A lisa :

    1. Copy Packit.pit, Packit III, MacMan, MMIndex, and
       MacManFile to your hard disk.
    2. Double click packit.pit then choose save, the file called Manual
       will be generated.
    3. Erase Packit.pit and Pacit III from the Hard disk
    4. Using DA/Font Mover install MacMan on your system.
    5. Save the original MacMan disk.

Distribution :

This is a user supported product, We encourage you to pass it along
to others. If you find MACMAN to be of use, suggested donation of
$10 is strongly appreciated. With your support we can continue to
develop useful software tools.
