### **about the *support bulletin***

The *support bulletin* is a quarterly technical journal published by NeXT Computer, Inc. Its goal is to provide timely technical information to help you better support your NeXT network or user community.

Each *support bulletin* includes a floppy disk that contains an electronic version of the bulletin and NeXTanswers, a comprehensive library of technical information. The disk is designed to be used with NeXT's Digital Librarian so you can easily access information on specific topics by means of keyword searches.

NeXTanswers provides responses to common (and sometimes uncommon) technical questions. Formatted as question-and-answer pairs, topics include system administration,

programming, and NeXT applications.

If you'd like to subscribe to the *support bulletin* or inquire about subscriptions, please use the order form on the other side of this sheet.

If you have editorial suggestions or comments, we'd love to hear from you. Please e-mail us at [support\\_bulletin@next.com](mailto:support_bulletin@next.com) or write to:
