HANDS ON HTML

On the disc is Part Four of the epic saga 'Hands On HTML' in PDF format. This is from last month's issue of .net, where HTML meister David Sikk delved into forms and frames. To catch up with the latest instalment, go look at page 117 to learn about Other Technologies - Java, Shockwave, VRML and the like. We've also provided you with Adobe's Acrobat Reader for Windows and Mac so that you can read these PDF files. How thoughtful.
