Greetings, and welcome to the even newer look .net CD-ROM

Once again, the disc is packed with programs. To find out more about all this lovely software, see the On The Disc section in the magazine (which starts on page 115). For further info, check out the URLs which are peppered throughout the CD.

Move your cursor over one of the six sections in the contents menu,  and a description of the section and programs will appear right here. Click on the programs for further details and downloads.

To get back to this CD Contents Menu, move your cursor over the .net logo in the top left-hand corner. If you need help navigating around the CD, press the Help button in the bottom-right menu. When you've finished, click on Quit. Have fun and e-mail your comments to me.
