

WELCOME TO THE A.D.A.M. SCHOLAR SERIES DEMO DISC!

This disc contains several elements, all designed to help you learn more about the A.D.A.M. Scholar Series of products and determine which ones are right for your needs. The contents of the disc include:

- An Interactive Demo of all three A.D.A.M. Scholar Series products. The demo runs directly from the CD so no installation is necessary. To run the demo, double-click the **main.exe** file in the **ssdemos** directory.
- Self-running short versions of the demos which you can freely share with your friends and colleagues (AND WE ENCOURAGE YOU TO DO SO). These have been compressed and can be easily loaded onto a local area network. They are located in the **share** directory on the CD.
- Promotional and informational documents which can be viewed on your computer and printed to a color or black-and-white printer. This is done using the Adobe Acrobat™ reader which is included in the **info** directory on the CD.

(The information contained in the Printable files is current as of 4/1/95. Product availability is subject to change. Please call 1-800-755-2326 for current pricing and other information.)

Note: please be sure to read the **read_me.wri** files that are enclosed with their respective directories.

Just the Fax

A.D.A.M. Software, Inc. has created "Just the Fax", a fax-on-demand system that includes updated product and company information and product pricing. You can call 1-800-288-2326 24 hours a day, seven days a week to choose from a large and ever growing list of informative pages on the topics which you select. For international customers, please contact the distributor in your area to receive this information.

Demo system requirements

- 386/33 MHz processor (486 or higher recommended)
- Microsoft Windows™ 3.1 or higher
- 4 MB RAM
- SVGA color monitor, 256 color display set to 640 x 480 resolution
- Double-speed CD-ROM drive
- Mouse or other pointing device
- MPC-compatible sound card

NOTE: The interfaces and screen shots shown in the product demos are from the Macintosh® platform version, and may vary slightly from the Windows™ platform version.
