%Copyright%

- This program is **FREWARE**. It may be distributed freely by any means (disk, zip, cd, dvd, internet, ...) It may not be sold, nor may it be distributed on any support which is charged unless with prior written authorization of author.
- If you wish to distribute it, distribute the program unmodified and including all files. You may redistribute independent ActiveX components if the license agreement of the component allows you to do so.
- The source code is not available. The program may only be decompiled for personal information. It may not be decompiled for modification or adaptation of any sort.
- The program is released unsupported; that is updates and upgrades of the program are not guaranteed. The author keeps the right to not release bugs fixes and/or patches of any kind.
- The author keeps the right to exclude any person from using or distributing this software if any of the above statements aren't applied.
- This program is supplied as is without any warranties whether expressed or implied. The author assumes no responsibility for any loss of money, time or productivity, or damages in any way to any person(s) or computer hardware as a result of using this program. The author is not responsible for any unlikely event of any possible loss of data, or system crash that may be incurred by using the software. The user of this program assumes the entire risk of using the program.
- This program is protected under French authors rights and intellectual rights (art. L122.6).
- This program is protected by the international laws of copyright.
