

## Gold Fish II

### The Second dive

The GoldFish () is in to another adventure, you can control it with the arrow keys. The only weapon that he have is a blue () water bubble, to shoot it, use the CTRL key.

There are also red bubble () that turn the GoldFish into RedFish () , it will be red for about 30 seconds and in this time he can eat the other sea creatures.

If the RedFish eats a transparent bubble () , he turns back to GoldFish.

If the GoldFish eat a transparent bubble, he gets one point.

When the GoldFish is red he becomes a predator and eat all the other creatures, he also have an immunity against the surprises () .

In the sea there are five enemy fish and some other creatures:

Yellow fish, is the most common fish, he can dive between the stones, if he touches the GoldFish he lowers the GoldFish health by 25 points, it takes only one blue bubble to kill him, this fish steals the pearls () and substitute them with a surprise () . The surprise can be 20 points or extra lives but it can be also a bomb that kills the GoldFish.

Blue fish is also a common fish, he cannot dive between the stones, if he touches the GoldFish he lowers the GoldFish health by 20 Points, this fish steals the flowers () and he substitute them with a surprise, it takes two blue bubbles to kill him.

Green fish is less common, he cannot dive between the stones, if he touches the GoldFish he lowers the GoldFish health by 15 points, this fish steals the falling leafs () , when the GoldFish eat those leafs they give him full health, it takes three blue bubbles to kill him.

Orange fish is also less common, he can dive between the stones, if he touches the GoldFish he lowers his health by 10 points, this fish steals the surprises, it takes four blue bubbles to kill him.

Red fish is a rare one, he can dive between the stones, if he touches the GoldFish he lowers his health by 35 points, this fish steals the cherry () and substitute them with surprises, this fish can also shoot black bubbles () , if those bubbles are touches the GoldFish, it lowers his health by 35 points, it takes one blue bubble to kill him.

Water beetle is also a common creature, if it touches the GoldFish, it lowers his health by 20 points.

Frogs are also very common, if they touch the GoldFish they lower his health by 25 points

Water cockroach are common creatures and if they touch the GoldFish they lower his health by 20 points.

To move to the next level the GoldFish must pick up all the fruits () , the flowers () and the pearls () .

If there are surprises they the GoldFish must collect them to or destroy them with the blue bubble.

There are three types of stones:

Ordinary stone, it blocks the GoldFish and some of the enemies.

Soft Stone, the GoldFish can swim through, it blocks some of the enemies.

Detonation Stone, to blow it the GoldFish have to collect the Bomb () , it blocks some of the enemies.

The falling leafs gives the GoldFish full health.

The initial levels are very easy, but the game is getting difficult as you go through the Levels. You Start with 10 blue bubbles, and you can accumulate more in every level.
