

## SOLUTION TO THE LAST HALF OF DARKNESS

The instructions here require you to click on the boxes in the exits window. You can click between the command and the item in the view window instead. When you click on a box in the exit window you should be in the room typed in all caps. For example, in number 1 below, when you click on the top left corner box in the front yard, you should now be on the porch. If you aren't where these instructions say you should be, re-check which direction you went. The asterisk (\*) beside a number indicates that you must do something in that room.

1. FRONT YARD - click on go, click on top left corner box in exits window.
2. PORCH - click on open, click on door, click on go, click on door opening.
