Intro:

This application will automatically start you PPP when you start a related application. Like OmniWeb for example.

The Package:

Version 0.1 comes complete in a tar.gz package.
Which includes:

- DialOnDemand.app A FAT OpenStep binary for NeXT, Intel and Sparc hardware

- README.TXT   This file

- Includes Full Source Code

- FAT OpenStep binary, NeXT, Intel and SPARC.

Compiling:

This version includes all the source code necessary to recompile the program from scratch on OpenStep 4.0+ systems.
