

# 0.5 Release Notes: PropertyEdit

Enhancements include the following:

- ***Document Window***

Moved some things around to leverage window real estate.

98101\_paste.tiff ↵

- ***SaveAs***

You know the routine.

- ***Preferences***

A control has been added to manage a leading delimiter, 'Hide Leader'. Also added a pair of fields to display your current default window size, versus the current size of your key window.
