

MiscAutoTextScroller Demonstration

MiscAutoTextScroller is a View subclass that can be used to produce scolling info panels easily, like in the EOModeler application.

The text to scroll is stored in a RTF or RTFD file, which enable you to use various fonts, **colors** and even to include paste.tiff ↵

I am afraid I don't have anything else to say.

Pom. Pom.

Always here?

Boring, isn't it ?
