December 22 to January 20

Sign number # 10

Ruler - Saturn

Element - Earth

Quality - Cardinal

Key words - Ambition, conservatism

Ego - I use

Key words prudently, calculating, capable of great diplomacy, realistic, very responsible, materialist, very often pessimistic, determined, ambitious, careful, some what snobbish always wanting the best, with one eye on the top step of the ladder. Having patience they can show a sense of discipline, persevering. Over exacting, conventional, miserly mean and they really can be a wet blanket. These people are ambitious, always looking for a raise in pay.

They do not feel they have to keep up with the people next door because they are the people next door. They usually know how to cultivate the right people to get what they want in life. In their

youthful years they may waste time and money, but once they reach middle age, security and a bank account become immensely important. Their biggest financial weakness is holding on to a savings account that pays 4% interest and making up payments at 18%. All Capricorn have an earthly sensuality but reveal it only to a chosen few. Very dominating sign. Taurus (materialist) is one of their favorite people. Never impulsive and are usually more than generous if they like you. The Capricorn will give if it is to their advantage. They must always be in charge. They are great believers in a good education, especially in middle age which prepares them for great positions of power. This native must believe in power because once he has reached a certain position in life, he must learn to rely on himself. He will walk on anyone or anything to get what he wants.

Health:

Since Saturn rules bones, the native may be susceptible to rheumatism and arthritis. They usually become stronger in their physical constitution as they get older. Most Capricorn live well into their eighties however, most have a tendency to have long illness, not being able to recuperate very well.

Best:

Best partner - Scorpio

Best boss - Libra

Best doctor - Virgo

Best subordinate - Gemini

Watch out for - Sagittarius

Famous people with same sign:

Sir Isaac Newton, December 25, 1642
