***Welcome,***

*We're* glad you decided to try one of our products. If there is anything you think we could do better, please feel free to contact us.

*Penny's Arcade* is a not a trivial game. Using the settings, you can adjust the artificial intelligence of the game to play just about anything you'd like. In fact, each player can be adjusted separately. So you could have the whole family playing at the same time, each at their own level.

There are a total of 5 skill levels for each game. Each level has any number of tasks you will be asked to complete. All in all, there are thousands of situations and hundreds of tricks to learn.

*Thanks* again for taking the time to review our products.

Sincerely,

**WinGames.Inc**

## How To Play:

When you 'Buy Tickets', you start a new game. The 'Prize' you are playing for will ask you to complete a task. If you complete the task successfully, you win that 'Prize', and also are awarded points based on what skill level you are at. If you do not complete the task, you lose a ticket. When you lose all of your tickets you collect your 'Prizes' and the game is over.

## Game Settings:

Click on a 'Tab' to select each players settings. While you can change a players settings during a game, you must 'Buy Tickets' for them before they can play.

The screenshot shows the 'Game Settings' window for Penny's Arcade. At the top, there are four colored tabs: green, red, blue, and yellow. Below the tabs is a 'Name:' label followed by a text input field. Underneath the name field are two checked checkboxes: 'Increase Skill Level When You Win' and 'Decrease Skill Level When You Lose'. The settings are organized into three main sections: 'Skill Level', 'Ammunition', and 'Games'. The 'Skill Level' section has four radio buttons: 'Kids Pop Gun Alley', 'Range Rookie' (which is selected), 'Sharp Shooter', and 'Trick Shot Artist'. The 'Ammunition' section has three radio buttons: 'Buckshot', 'Coils' (which is selected), and 'BB's'. The 'Games' section has a list of eight games, each with a checked checkbox: 'Duck Pond', 'Bouncing Balls', 'The Great Race', 'Red Light Green Light', 'Flags Of The World', 'Clowning Around', 'Rocket To The Stars', and 'Ballon Festival'.

*Name:*

Enter the name of each person who is playing and select the appropriate options.

***Increase Skill Level:***

This allows you to adjust how the game is played. When it is checked and you win a task, your skill level will increase for that particular game the next time you are asked to play it.

***Decrease Skill Level:***

This allows you to adjust how the game is played. When it is checked and you lose a task, your skill level will decrease for that particular game the next time you are asked to play it.

**\*NOTE:** If neither of the above are checked your skill level will stay the same whether you win or lose. 'Kid's Pop Gun Ally' is not effected by these options.

***Skill Level:***

Select the appropriate level to play.
