Distributing Runtime Multimedia ToolBook

Asymetrix allows you, a licensed owner of Multimedia ToolBook 3.0, to distribute Runtime Multimedia ToolBook 3.0 free of charge with your Multimedia ToolBook application. You are required to ship the minimum set of files needed to run Runtime Multimedia ToolBook, and you may, at your option, distribute certain additional Multimedia ToolBook files. The required, linked, and optional files are listed below.

Required:

```
MTB30BAS.DLL
MTB30BMP.DLL
MTB30CMP.DLL
MTB30FLT.DLL
MTB30LNL.DLL
MTB30MM.DLL
MTB30MM.INI
MTB30NET.EXE
MTB30RUN.EXE
MTB30UTL.DLL
PCDLIB.DLL
PCDXBMP.DLL
PHOTO.DLL
TBLOAD.EXE
```

Linked (optional):

```
PXENGWIN.DLL
T30PDX.DLL
```

While `PXENGWIN.DLL and T30PDX.DLL` are optional, you must ship both if you ship either one. This requirement is simply a practical matter as these files work together. You may only distribute these files as part of an application developed with and running in Multimedia ToolBook.

The following files are required if your application includes full-text search capability:

```
FTS30HLP.STS
FTS30IQR.DLL
FTS30MAC.STS
FTS30MSG.STS
FTS30MTB.DLL
FTS30RDR.DLL
```

Optional:

```
TB30DB3.DLL
TB30DOS.DLL
TB30DLG.DLL
TB30WIN.DLL
TBKMMWID.FON
```

Your users (i.e. those to whom you distribute Runtime Multimedia ToolBook) are not allowed to re-distribute any of these files, unless they re-distribute them as part of your whole and unmodified Multimedia ToolBook application.

Distributing Clip Art Files

You may use and distribute any of the Multimedia ToolBook clip art files that are installed in these directories or those below them:

* `CLIPART` directory on the Multimedia ToolBook CD
* `MEDIA` directory on the Multimedia ToolBook CD
* `CLIPART` directory installed on the hard disk as part of Multimedia ToolBook

You may, however, only distribute these files as integral part of a Multimedia ToolBook application. You cannot distribute any clip art files in the form of a clip art library, and your users may not redistribute these files except as part of your whole application (see above).

Complete File List

This File:

`FILELIST.WRI`

Release Notes:

`RELNOTES.HLP`
`RELNOTES.WRI*`

* This is a Windows Write file that contains all the information in `RELNOTES.HLP`. You may print this file if you prefer reviewing the Release Notes on paper.

Multimedia ToolBook System Files:

`ASYMSPEL.DLL`
`MTB30.EXE`
`MTB30.SBK`
`MTB30BAS.DLL`
`MTB30CMP.DLL`
