

Ambush

Ambush is an ancient board game somewhat reminiscent of chess. At one time it was very popular but it is little known today. In the literature on board games it is called *Rithmomachia*. There are 3 basic pieces : rounds, which move 1 space at a time, triangles that move 3 spaces, and squares move 4 spaces. There is also a pyramid which is composed of the other pieces types and can move like any of them. Each Piece is assigned a numerical value and movement is any direction. Captures are accomplished by various spatial and numerical combinations.
