

**ORDER FORM**  
**AGNS - A Game of Naval Strategy**  
**ONLY \$14.95(US\$)**

AGNS is sold as Shareware. This means that you get to "Try Before You Buy" - a good deal! Shareware authors spend hundreds of hours developing their products. If they succeed in developing a quality product that you find useful or enjoyable, they deserve to be compensated for their work. This way everybody wins because the shareware authors (if they are good!) will continue to develop quality products and you, the consumer, benefit from value offered by Shareware (we can sell our products at very reasonable prices because we have low marketing costs). So, if you think AGNS is a good product and you find yourself playing it, please register! When you register, you will:

- Receive instruction to fully enable the program
- Be eligible for free upgrades
- Be eligible for technical support
