How to split a file

How to Split a file

Once the program has loaded, select the size of the disk you would like to split to. Then select the file you would like to split. Now select where you would like to split the file to. All there is left to do is select the split button to start the file splitting

How to join a file

How to join a file

Simply insert disk No 1 into the drive and press the rejoin button. Now select the file you want to rejoin, select the directory where you want it to be rebuilt and press the rebuild button.
