Current Version (V1.2):

This version of **Freecell** is best run with resolutions of 800x600 or better.  Better handling for lower resolutions will be in the next major release.

Coming next major releases (not necessarily the next one):

o  Better low resolution handling.
o  Save & Load game features.
o  Better column move logic.
o  Better mouse handling
o  Your suggestions!

See README.WRI for registration information.
