Home Page at : [Error: Reference source not found](#)

Installation:

Download Printkey18.zip

Unzip it with Pkunzip® or Winzip® in a Directory of your choice

Run printkey18.exe

You can also make a shortcut to printkey18.exe on your Startup folder so that it is launched always at Windows start.

Help:

To print the full Desktop just press the PRINTSCREEN Key on your PC Keyboard

To print only the Active Window press ALT + PRINTSCREEN on your PC Keyboard

The PRINTSCREEN Key is labeled like **PrintScrn/SysRq**

After you have pressed the Printscreen key a Dialog Window appears you can then choose

In the **Options** the settings that you like and then press the **PRINT** Button

If you like to print only a **portion of the Desktop** you can drag a rectangular area on it with the **Select Rect.** Button

If you select **Immediate Action** the next time you press the PRINTSCREEN Key the Desktop or Windows will be printed without Dialog.

You can **Save all Options** that you have selected so that they are used automatically.

If you have Questions or a Bug report please Mail me and I will reply as soon as possible

[Thanks and enjoy using PrintKey® V1.8](#)
