## About SlovoEd

**SlovoEd** is a well-known set of products developed by **Paragon Software Group** for popular mobile operating systems such as Symbian OS, Windows Mobile/Pocket PC, Windows CE Smartphone and Palm OS.

The advantages of SlovoEd dictionaries are intuitive user interface, large and rich dictionary databases and reasonable memory consumption at the same time, high translation speed and possibility to use several dictionary databases at once.

You can also install additional sound modules available for English, Spanish, German, Italian and French. With these modules you can listen words pronunciation sounded by native speakers. It is essential feature for language learners. Most Deluxe editions of SlovoEd dictionaries include sound modules by default. Just like dictionaries, the sound modules are available in Compact, Classic and Deluxe editions depending on number of the sounded words.

Just like other products developed by Paragon Software Group, SlovoEd is distinguished by the high reliability and standard compliance. SlovoEd dictionaries have been successfully tested for Symbian Signed program. For more information visit [www.symbiansigned.com](http://www.symbiansigned.com).

Read, learn, work and travel with an authoritative Symbian OS dictionary in your pocket from the most distinguished language translation and reference publishers, i.e. Merriam-Webster Inc., Van Dale Lexicografie BV, Larousse Editonal, S.L., MAGENTA LTD., LingoMAXX, "Русский язык Медиа" (Russkiy Yazyk Media) etc.

### ***Language version of "SlovoEd"***

We can offer you the numerous explanatory, thesaurus and bilingual dictionaries for the following languages:

English	Hungarian
German	Latin
French	Lithuanian
Italian	Norwegian
Spanish	Polish
Arabic	Portuguese
Bulgarian	Romanian
Catalan	Russian
Croatian	Serbian
Czech	Slovenian
Danish	Swedish
Estonian	Turkish
Greek	Ukrainian
Hebrew	

The interface of the dictionary is available in English, German, French, Spanish, Italian, Dutch, Greek and Russian.

Some language versions of the dictionaries are available in several editions: **Compact, Classic, and Deluxe**. They differ from each other by the number of examples, synonyms, lexicographic information, transcriptions, number of translations and price.

## Useful programs

Pay your attention to other useful programs developed by **Paragon Software Group** for smartphones based on Symbian OS:

	<b>Handy Tools</b> is a suite of useful and popular programs: Handy Safe, Handy Clock, Handy Weather, Handy Zip и Handy Expense.
	<b>Handy Safe</b> helps to keep all of your confidential information in one place, safe, secure, easy to access, and always with you. Synchronize your data between smartphone and PC with Handy Safe Desktop agent.
	<b>Handy Expense</b> is a new powerful expense tracking application for Symbian S60 smartphones. It helps you to control the purse strings. The synchronization with PC helps you to create report.
	<b>Handy Weather</b> – provides you with always up-to-date 5-day weather forecast for any city in the world.
	<b>Handy Clock</b> – Do whatever you want with time! Check it in 5 world cities at once, note it with stopwatch, count it with time log, plan it with calendar or even forget about it with alarms and timers.
	<b>Handy Alarm</b> it is your alarm for all of life's emergencies. Set up several different types of alarms. Workdays alarm will wake you up in the morning and once or repeated alarms will remind you about important meeting.
	<b>Handy Keylock</b> – Utility to answer your everyday needs. Protect your smartphone keys against accidental pressing.
	<b>Handy Taskman</b> - Be in full control of your smartphone with powerful task manager Handy Taskman. Switch to, Close, Kill any application or Close them all in one click.

	<b>Handy Traveller</b> is a suit of three applications for handy travelers: Handy Weather, Handy Clock and Handy Expense. It allows you to spend time in the trip with benefit and pleasure.
	<b>Handy Essentials</b> - The bundle of three essential utilities for every smartphone's owner: Handy Keylock, Handy Alarm, Handy Taskman.

Visit <http://www.epocware.com/> to try the trial-versions and get the full versions of the described programs.

## Installation

Make sure that the synchronization utility (PC Suite) for smartphone connection with PC is installed on your PC. You can find this program on CD that is supplied with your smartphone.

It is necessary to install the following components:

1. SlovoEd dictionary engine;
2. One or more dictionary databases you want to use;
3. You can also install one or more sound modules.

There are two ways of SlovoEd dictionary installation.

### ***Installation from the desktop computer***

To install the SlovoEd dictionary engine, dictionaries databases and sound modules, please do the following:

1. Establish connection between your smartphone and desktop computer, using Bluetooth, Infrared port or cable.
2. Unpack zip-package on the desktop computer. In folder Program you will find the installation files (the dictionary engine, dictionary databases and sound modules). Do the following for each installation file:
  - run installation file by double click;
  - follow the installer instructions.
3. When installation is finished the SlovoEd icon should appear in the list of smartphone's applications.

### ***Installation from the device***

To install the SlovoEd dictionary engine, dictionaries databases and sound modules, please do the following:

1. Unpack zip-package on the desktop computer. In folder Program you will find the installation files.
2. Copy the installation files to your smartphone (using Bluetooth, Infrared port or by some other method).
3. Do the following for each installation file:
  - run installation file by joystick or choose Options>Open in smartphone's menu;
  - follow the installer instructions.
4. When installation is finished the SlovoEd icon should appear in the list of smartphone's applications.

## Uninstallation

You can remove dictionary database, sound module files and SlovoEd dictionary engine separately.

When you remove one of the dictionary databases you can continue using SlovoEd with other dictionary databases.

You should have installed at least one dictionary database to use program.

To completely uninstall the program from the smartphone you need to remove all components: SlovoEd dictionary engine, all dictionary databases and sound modules.

The dictionary engine is necessary for the SlovoEd usage. Do not delete it needlessly.

Please refer to smartphone's user manual for exact Uninstallation procedure.

## Demo-version limitations and registration

The more you use an unregistered dictionary, the more you get the registration reminder message instead of translation. In case of sound module you will hear beeping instead of correct pronunciation. You have enter the registration code to get rid of these limitations. You will get this code by e-mail after purchasing.

Each dictionary database and sound module should be registered by its own registration code.

Please be accurate when you type the registration code: do not mix up zero with letter O, you should not enter any unnecessary spaces in the input field.

## Useful information

### ***How to purchase the program***

Visit our web site <http://www.epocware.com/> and choose the product you want to purchase and press "Buy" button. There you will see the link to e-commerce system where you can complete you order.
