Installation PLP 120 DEMO Version (PC VST 2.0)

1) Installation of the sound library

➔ *The file „plp120-demo.ulp" contains the sounddata for the demo.*

➔ *Copy this file onto the hard drive in a subdirectory of your choice.*

2) Installation of the plugIn

➔ *Copy the file „PLP120 Demo.dll" into the VSTPlugIns folder of your host application or sequencer.*

3) First start

➔*The path of the folder containing the ULP file will be asked once during the first start so that it can be found.*
