Getting Started

To play a game:

1. Click the **Start** button, and then point to **Programs**.
2. Point to **Microsoft Games**, and then click on **Puzzle Collection Trial**.
3. Click the icon for the game you want to play.

Learning to Play: Quick Help and Full Help

As soon as you open a game for the first time, Quick Help provides an overview of the game's objective and brief instructions on how to play. For a more complete guide, including strategies, hints, detailed scoring information, and information about customizing the game, click **Contents** on the **Help** menu or press **F1**.

Some of the features described in Help, especially game customizing options, may not be available in the trial version.

The Boss Key Lives!

The Puzzle Collection has a "boss key" that makes a game disappear should the need arise to look busy. Just press the **ESC** key and your game will immediately pause and minimize to become a mere taskbar button along the bottom of your work-filled desktop. A click on the game's taskbar button reopens your game. Click **Play!** and you are exactly where you left off.
