# GateKeeper Overview

## GateKeeper - Encryption-Protected Storage System

*by Vogue Mechanics Software*

GateKeeper is a encryption-protected storage utility which allows you to keep all of your user id's, passwords, account numbers, access codes and other information securely encrypted in an easily accessible place. Now you only need your GateKeeper password to gain easy access to all of your secured information. For complete security, you can change your GateKeeper User Name and/or Password as often as you like. GateKeeper resides conveniently in your system tray.

### Security

GateKeeper is installed wholly on your computer and all of your private information is securely encrypted on your computer. Both GateKeeper and your private information are inaccessible to any network connection and any other computer.

### Encryption

GateKeeper uses a very secure proprietary 64-bit encryption algorithm to encrypt all of your private information.

# User Name and Password

When you first start GateKeeper you are prompted to enter a User Name and Password. To maintain your GateKeeper security, you will be required to enter these every time you open GateKeeper.

For extra security, it is recommended that you change your User Name and/or Password regularly. You can change either or both as often as you like.

## Remember User Name

For convenience, you can check 'Remember User Name' on the GateKeeper Log-In window and only need to enter your password. For extra security, uncheck 'Remember User Name' on the GateKeeper Log-In window. Then both User Name and Password will be required to open GateKeeper.

## Changing User Name and Password

To change your User Name and/or Password, select '**File**' then '**Change User Name/Password...**' from the menu. In the GateKeeper User Name and Password dialog box that appears, enter your new values and click 'OK'. Your User Name and Password must contain 7 or more characters each.

# Editing Entries

## Adding Entries

To add a new entry to your GateKeeper list, do one of the following:

- 1) Select **'Edit'** then **'Add New Entry'** from the menu.
- 2) Press **Ctrl + A**.
- 3) Right-click anywhere in the GateKeeper list box (except on an Account Name) and select **'Add New Entry'**.

In the New GateKeeper Entry dialog box that appears, enter your desired information and click 'OK'. Account Name is the only *required* item for each entry.

## Changing Entries

To edit an existing entry in your GateKeeper list, do one of the following:

- 1) Click on the Account Name you would like to edit, then do either step a) or b):
  - a) Select **'Edit'** then **'Edit Entry'** from the menu.
  - b) Press **Ctrl + E**.
- 2) Right-click on the Account Name you would like to edit and select **'Edit Entry'**.

In the Edit GateKeeper Entry dialog box that appears, enter your desired information and click 'OK'. Account Name is the only *required* item for each entry.

## Deleting Entries

To delete an existing entry in your GateKeeper list, do one of the following:

- 1) Click on the Account Name you would like to delete, then do either step a) or b):
  - a) Select **'Edit'** then **'Delete Entry'** from the menu.
  - b) Press **Ctrl + D**.
- 2) Right-click on the Account Name you would like to edit and select **'Delete Entry'**.

To avoid accidental deletions, you will be prompted to confirm the deletion.

# Viewing Your Secured Information

## Opening GateKeeper

To open the GateKeeper window, do one of the following:

- 1) Double-click on the GateKeeper icon in your system tray (usually near your clock).
- 2) Right-click on the GateKeeper icon in your system tray and select **'Open GateKeeper'**.

## Hiding GateKeeper

To hide the GateKeeper window, do one of the following:

- 1) Click on the **'Hide'** button.
- 2) Press **Ctrl + H**.
- 3) Click on the **'X'** in the upper right of the GateKeeper window.

## Showing and Hiding Your Secured Items

To toggle between showing and hiding your secured items, do one of the following:

- 1) Double-click on the selected Account Name.
- 2) Click on the selected Account Name, then do either step a) or b):
  - a) Select **'File'** then **'Show/Hide Secured Items'**.
  - b) Press **Ctrl + S**.

## Keep secured items hidden every time this window opens

When you hide and then re-open the GateKeeper window, the items that were shown will remain shown and the items hidden will remain hidden. For extra security, check 'Keep secured items hidden every time this window opens'. That way all items will be hidden and secured every time the GateKeeper window opens.

# Importing and Exporting

To transfer your GateKeeper list to another computer without having to re-enter your information, you can export your list to a GateKeeper file (.gkp), then import this file into the other computer.

## Exporting GateKeeper Files

To export your GateKeeper list, select **'File'** then **'Export List...'** from the menu. In the 'Export GateKeeper File' dialog box that appears, specify a destination folder and file name then click 'OK'. This file can then be transferred to a different computer by email, copying to a disk, etc.

## Importing GateKeeper Files

To import your GateKeeper list, select **'File'** then **'Import List...'** from the menu. In the 'Import GateKeeper File' dialog box that appears, locate and select the GateKeeper file (.gkp) that you created above and click 'OK'. You will be given the option to add the file entries to your existing entries (merge), or to replace all of your existing entries with the file entries.
