

§ ASTIGMATIC ONE EYE TYPOGRAPHIC INTITUTE §

Freeware & Purchasable Typeface Specimens of an Astounding Variety

The typefaces included within this package were created by Brian J. Bonislawsky DBA the Astigmatic One Eye Typographic Institute (AOETI).

I would like to personally thank you for downloading and using these typefaces for either your Personal and/or Commercial designs or work. Please feel free to use this typeface without the need to acquire or pay for any license for design use, so long as your use does not conflict with the following limited restrictions. . .

1. If you wish to distribute these typefaces digitally on any CD Publication, you must acquire documented consent from Brian J. Bonislawsky of the Astigmatic One Eye Typographic Institute.
2. If you wish to develop derivative Alphabet Products such as, but not limited to, stickers, stencils, stamps, digital lettering, etc., you must acquire documented consent & pay a licensing fee specific to the intended product development.

All Astigmatic One Eye Typographic Institute typefaces are available in both Truetype and Postscript with Bitmaps formats for Mac and PC compatible systems. **When installing these fonts, please only install the typefaces within the Truetype OR Postscript folders, but NOT BOTH.** Installing both at the same time will only default out the typeface to a generic system font.

If you use these Freeware typefaces, please consider supporting Astigmatic by perusing our purchasable typefaces, available at very affordable rates. As an added incentive, by buying any Astigmatic typefaces, you gain lifetime access to the Illuminati Archives, a growing archive of typefaces only available to clients, free with any order.

Since its founding, Astigmatic has worked with dozens of designers, helping them to forge their own foundries as well as helping to increase the quality of type, both created by Astigmatic and these individual designers and foundries.

Astigmatic is striving to continually increase its range of typographic scope; taking on new expeditions to revive old typestyles, unearthing and digitizing long lost specimens, as well as forging new and original typefaces.

You are welcome to pass the Freeware version of this font along for others to review, as long as this document is included in the transfer. Many thanks for your consideration.

Thank you for your interest in and use of Astigmatic typefaces. If you use these fonts in any commercial manner, I would enjoy hearing from you as to where they can be seen to fulfill my own personal curiosity and always welcome any physical proofs or samples of use.

All designs included in these font programs and the font programs themselves are copyrighted by Brian J. Bonislawsky DBA Astigmatic One Eye Typographic Institute, All Rights Reserved.

To contact the Astigmatic One Eye Typographic Institute or Brian J. Bonislawsky with any questions, comments, licensing requests, etc...
