## 1.2   Disclaimer

```
 I hereby reject any liability or responsibility for these or any other
 consequences from the use of TD_InsertCD whatsoever. This includes, but
 is not limited to, damage to your equipment, to your data, personal
 injuries, financial loss or any other kinds of side effects.
 Although TD_InsertCD has been tested thoroughly on several different
 machines, I cannot rule out the possibility that TD_InsertCD:
  -is incompatible to your equipment
  -has bugs that show up on your equipment
  -does not do what it is supposed to do on your equipment
 It is your responsibility to take any precautions necessary to protect
 yourself from these or any other effects.

 TD_InsertCD is FREEWARE. The program may be freely distributed and
 copied, as long as the following conditions are fulfilled:
  -The sales price must not be higher than the cost of an empty disk
```

   plus a nominal copying fee plus costs for shipping.
  –All parts of the program and the documentation must be complete. The
   distribution of single parts or incomplete subsets of the original
   distribution is not allowed.
  –TD_InsertCD or parts of it may not be sold in combination with or
   as part of commercial software without my written permission.
  –Program and documentation may not be changed in any way.
  –Permission has been given for distribution through Aminet and Fred
   Fish.

## 1.3  Introduction

```
 TD_InsertCD is designed for opening and closing CD tray.
 TD_InsertCD works with drives controlled by devices that accept TD_EJECT
 (if you don't know, then run program and try it).
  ____                    ____
  /\                      ||
 /  \  - close tray       \  /  - open tray
  ||                       \/
```

## 1.4  Requirements

```
 TD_InsertCD needs any Amiga with KS v37 or higher.
```

## 1.5  Installation

```
 Copy program with icon to desired place on disk.
```

## 1.6  Arguments

```
 For CLI/Shell:

 DEVICE : device name e.g. cd.device, scsi.device. Default is cd.device.
 UNIT : unit number. Default is 0.
 X : horizontal window position.
 Y : vertical window position.
 PUBSCREEN or PS : public screen name where TD_InsertCD opens window.

 For Workbench:

 DEVICE,UNIT,X,Y,PUBSCREEN - same as for CLI/Shell. Write it in
                             "Tool Types" window of icon.

 Example usage:
 TD_InsertCD scsi.device 2 X=500 Y=200 PS=DOPUS.1
```

## 1.7  Important

When program can't open cd.device, then "flashes" display.

## 1.8  Author

If you found bugs, have any suggestions how to improve this program
or anything else, write to me. Sorry for my bad english.
