# **Read Me • Canvas™ 8**

**PROFESSIONAL EDITION**

**Electronic Evaluation Version**

*April 22, 2002*

Thanks for evaluating Deneba Canvas 8! This document contains information about installing and trying out Canvas 8.

Before beginning the installation process, you may need to obtain an evaluation serial number. Please visit <http://www.deneba.com/download/evaluate/>.

After entering an evaluation serial number during installation, you can use the full-featured Canvas 8 Evaluation version for 15 days. This version Canvas 8 will expire at the end of the 15-day evaluation period.

**Note:** If you cannot obtain an evaluation serial number, you can run this version of Canvas in "demonstration" mode by installing it without entering a serial number. In demonstration mode, Canvas will not save or export documents, and documents you print will have a "Canvas" banner on each page. All other features are fully available.

In order to reduce the download size, the interactive html help system is not included in the downloadable evaluation version. You can access the complete help system and HTML documentation at the following URL:

**Help:** <http://www.deneba.com/cv8help/>

If you need additional help, refer to the end of this document for information about contacting Deneba Software.

## **INSTALLING Canvas 8**

Before you install Canvas, please verify that your system meets the minimum requirements for running Canvas:

- Pentium™ II -class processor
- Microsoft® Windows 95 / 98 / ME / 2000/ XP or Windows NT 4.0 or later
- 64 MB RAM
- 80 MB free hard disk space
- 16-bit color (24-bit is best)
- 800 x 600 or higher screen resolution

### **Installing Canvas**

 Setup.exe To begin installation, double-click the file SETUP.EXE located in the same directory as this Read Me file. The Canvas Setup program displays instructions and options for you to select.

- On the Software License Agreement screen, read the license agreement and indicate your acceptance of the license agreement by choosing I accept the terms.
- You can choose to install Canvas with its complete feature set by choosing Complete; or, if you only want to install certain components or install Canvas in another directory, select

Custom.

**Choosing a default color space**

The Setup program asks you to choose color presets based on your typical work. You can choose RGB or CMYK color presets. The installation screen explains the typical uses for these types of colors. The color system you choose determines which default inks Canvas loads into the Inks palette. It also affects colors in the Strokes palette, the mode of the Color Dropper tool, and the default printer calibration setting. However, this choice does not limit your ability to use any color system that Canvas supports. You can choose either color option during installation, and later change color system settings in Canvas.

## RELEASE NOTES

This section describes new features, changes, and corrections since the printing of the Canvas 8 documentation.

### Slide Show palette

A checkbox has been added to the Slide Show palette. You can now define the beginning slide for presentations by choosing the slide and then selecting the Start from Selected Slide checkbox.

### CONTACTING Deneba Software

We work continually to improve our products and satisfy the needs of our customers. We welcome your feedback and suggestions. If you have comments or need additional information or assistance, please contact Deneba by mail, phone, fax, e-mail, or Internet: Always include your customer number and registered serial number in all correspondence.

**Mail:**

Deneba Software  
Customer Support Department  
1150 NW 72 Ave  
Suite 200  
Miami, FL 33126

**Fax:** 305-406-9802

**Phone:** 305-596-5644 (9am to 6pm ET)

**E-mail:** [support@deneba.com](mailto:support@deneba.com)

**Internet:** Visit our web site at [www.deneba.com](http://www.deneba.com) for 24/7 automated support via our searchable knowledgebase system and on-line support forum. Our web site also contains the most up-to-date product information, our online store, software updates, how-to pages, tips, and company information.
