> Mac OS 9 System Software

Technical Documentation

Macintosh Technotes and Q&As. The latest and Technotes and and Q&As from our web site. For more information, please be sure to visit http://developer.apple.com/technotes/index.html and http://developer.apple.com/qa/index.html.

Technical Publications. Apple's Developer Publications web site features improved access to Inside Macintosh, WebObjects documentation, hardware notes, and more. Look for new and updated Mac OS 8 and 9 documentation for Apple Help, Text Encoding Converter Manager, Icon Services, and Navigation Services, as well as a brand-new WebObjects 4 documentation set and updated documentation for Mac OS X.

Development Kits

Color Sync 3.0 Mac SDK. ColorSync™ 3.0 is the latest version of Apple Computer's color management architecture for the Mac OS. The complete ColorSync™ 3.0 SDK for Mac developers includes Interfaces & Link Libraries, Documentation, Sample Code and Goodies. For more information visit the ColorSync website at http://www.apple.com/colorsync.

Macintosh Runtime for Java (MRJ) Redistribution SDK. This SDK will assist you with Text Extractor Plug-ins used by Find by Content to extract the text content of a document. Mac OS 8.6 provides two Text Extractor Plug-ins: HTML Text Extractor and PDF Text Extractor.

Network Services Location (NSL) 1.1 SDK. This DDK provides the latest information on writing Mac OS USB device drivers.

Text Encoding Converter 1.5 SDK. Text Encoding Converter allows you to convert text from one encoding to another, including Unicode.

Sample Code

This month's CD contains lots of new and updated sample code, including ColorPopUpMenus, HTMLSample, MoreIsBetter, MoreNetworkSetup, New NewGWorld, PackageTool, PostScript Output Filters, QTEffects Explode, Scriptable Print SimpleText, Simple DrawSprocket, TypeServicesForUnicode.

Tools

Ad Lib 3.0.1. Ad Lib is a graphical view editor which is used to create and edit view resources for MacApp-based applications. Ad Lib v3.0.1 provides compatibility with Mac OS 9 and fixes many bugs found in Ad Lib 3.0.

Memhell. Use MemHell for memory stress testing and debugging. This update contains fixes and enhancements to 1.0a5 , and works with QT 4.0 and Mac OS 9.

Mac OS System Software

Look for Mac OS 9 in the following languages on the System Software Edition: Chinese Simplified and Traditional, Danish, Dutch, Finnish, Hangul Korean and Norwegian.

Enjoy!
