### **CodeTek Virtual Desktop™:**

CodeTek VirtualDesktop™ extends Mac OS X to behave as if it has up to 100 hundred seperate monitors attached to it. CodeTek VirtualDesktop™ greatly increases your available deskpace and allows you to use a different desktop for different parts of your workflow! Using the virtual desktop pager GUI, you can switch between your separate virtual desktops and even drag windows around between them.

Price: \$40.00

### **DockExtender™:**

DockExtender™ allows users to minimize dock clutter and improve the speed and usability of the dock by allowing the User to create DockExtender menus that fit right into the dock. These menus contain lists of programs that are completely configurable by the User.

Price: \$10.00

### **SafeFile™:**

SafeFile™ allows the User to create a virtual safe for totally private document storage. The SafeFile™ virtual safe prevents anyone else who uses the same computer from being able to access any files the User has placed inside the virtual safe. And, individual users on the same computer can create their own separate virtual safe on the same computer.

Price: \$24.95

### **SafeClean™:**

SafeClean™ provides the User with a one-click method to protect the User's internet privacy. SafeClean™ quickly removes Internet history files and caches that can allow others to find out what the User has been doing on the Internet. SafeClean™ allows the User to eliminate information about his/her web browsing activities and even information on the User's use of instant messenger programs. SafeClean™ is completely configuarble so that the User can decide which types of information or internet applications the User wishes to clean for privacy purposes.

Price: \$25.00

SafeShred™:

SafeShred™ provides a virtual file shredder that completely shreds files selected by the User and permanently removes those files from the User's computer. SafeShred™ is scriptable so that the User can use AppleScript™ (using the OS X platform) to securely remove files from the User's computer.

Price: A \$10.00 retail value at no charge

SafeData™ Technology Suite 1.1:

SafeData™ Technology Suite 1.1 is a special package configuration of the SafeFile™, SafeClean™ and SafeShred™ programs.

Price: \$34.95
