

HTML-Optimizer 7.4 - OSX

© (2000 - 2003) Tonbrand Software

Short Description

HTML-Optimizer makes your web pages load faster by optimizing both HTML and script code.

The program features Smart Handling which means that only those pages that have changed are processed.

HTML-Optimizer helps you keep organized by creating a duplicate site folder for the optimized files. An added benefit is that it leaves your original files untouched.

You should use your original web folder for editing and use the duplicate web folder for uploading.

Drag and Drop is supported.

Installing

You should put the HTML-Optimizer Folder in your Applications folder.

Important

File names of items in your web folder may not be longer than 31 characters, including the suffix (extension). Please read the file 'ReadMeFirst' to learn more. Do this before you start the program.

Manual

The program's manual is as HTML file available in the HTML-Optimizer folder but is also built-in - see the Help menu. Note that Help Tags are available for most items in the Preferences window.

License

HTML-Optimizer is shareware and costs USD 12.00 for a Single User license and is valid for any model, whether it's PPC, 68K, OSX or Windows.

You can pay online via Kagi at the secure page <<https://order.kagi.com/?U5P>> or by using the Register Utility.

Limited Use if Unregistered

An unregistered copy has a time limit of 20 days. Please register in time so that you can continue working with HTML-Optimizer without delay.

Required

HTML-Optimizer comes in four models. With this you have the OSX model for Mac OS X 10.1 or later.

There are also models for Mac OS 8 to 9 - PPC, Mac OS 7.6.1 to 8.1 - 68K and Windows (all platforms).

Legal Stuff

HTML-Optimizer is provided "as is", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose and non-infringement. In no event shall the Author be liable for any claim, damages or other liability, whether in an action of contract, tort or otherwise, arising from, out of or in connection with HTML-Optimizer or the use or other dealings in HTML-Optimizer.

Who is the Author?

HTML-Optimizer was developed by Ton Brand from Tonbrand Software in The Netherlands. Since 1995, Tonbrand has offered a variety of freeware and shareware applications.

This program was written in REALbasic*.
