About the Register Utility

The Register Utility is a third-party application and works only in the Classic environment.

After launching the Register utility, enter your name, your e-mail address and the license(s) you want for HTML-Optimizer Pro. If you require a receipt then also enter your postal address.
Save or copy or print the data from the Register utility and send it to Kagi. Kagi will process your registration and forward your payment to Tonbrand Software.

If you pay with Cash or Check, you should print the data using the Register utility and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-U5P
Berkeley, CA 94709-1405
USA

Non-US Checks must be in the currency of the originating bank.
If you pay with Credit Card or First Virtual, you can email or fax the data to Kagi. Their email address is sales@kagi.com and their fax number is +1 (510) 6526589. You can either copy the data from the Register utility and paste it into the body of an email message, or you can save the data to a file and attach the file to an email message. There's no need to compress the data file; it's already pretty small. If you have a fax modem, just print the data to the kagi fax number.

Order processing time depends on your payment method.
Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Payments sent via fax take up to 10 days. Payments sent via email are processed within 3 to 4 days. Through the online registration site it takes no longer than 24 hours and sometimes even less than one hour.
You will receive an email acknowledgement with the program unlock code when your registration is done.
