

\$ + K A ! Welcome to RoboHELP

Welcome to RoboHELP®, the Industry Standard in Help Authoring from eHelp Corporation. This power-packed version of RoboHELP combines exciting new features with the established functionality Help authors have come to rely on.

This project shows you some of the cool things you can do with RoboHELP. Simply:

- Use the browse buttons above to navigate through each topic, or
- Use the Contents on the left to choose which topic you'd like to view.

Tip

This topic use a cloud watermark for the main topic. It's easy to add watermarks with RoboHELP. When you're authoring a project, simply open the topic, click **Topic Properties** then use the **Watermarks** tab.
