Embedded object text too long.

Hotspot text crosses paragraph boundary.

Hotspot text too long.

Invisible text too long.

Unrecognized footnote code.

**9001: Unrecognized footnote code.**

The Quick Checker encountered an unrecognized footnote code.

**9002: Embedded object text too long.**

The Quick Checker encountered an embedded object whose definition text exceeds the amount available. The embedded object is ignored by the Quick Checker.

**9003: Hotspot text too long.**

The Quick Checker encountered a jump, macro, or popup hotspot having a text string longer than the allowed amount. The hotspot definition is ignored by the Quick Checker.

**9004: Invisible text too long.**

The Quick Checker encountered a jump, macro, or popup hotspot whose invisible text exceeds the length allowed by the Quick Checker. The hotspot definition is ignored by the Quick Checker.

**9005: Hotspot text crosses paragraph boundary.**

The Quick Checker has encountered a jump, macro, or popup hotspot whose hotspot text contains a paragraph marker. The text to the right of the paragraph marker is ignored by the Help Compiler.
