[How to Add a Student to the Database](#)

[How to Add an Instructor to the Database](#)

For Help on Help, Press F1

## Add Student Dialog Box

This dialog box allows you to add students to the database. To access this dialog box, from the **Edit** Menu, choose **Add Student**.

To add a student:

1. Type the student's name into the **Name** field.
2. Type the student's address into the **Address**, **City**, **State**, **Zip** and **Country** fields.
3. Select whether the student is a **New** or **Transfer** Student.
4. When you have finished, choose the **OK** button.

## Add Instructor Dialog Box

This dialog box allows you to add instructors to the database. To access this dialog box, from the **Edit** Menu, choose **Add Instructor**.

To add an instructor:

1. Type the instructor's name into the **Name** field.
2. Type the instructor's address into the **Address** field.
3. Type the instructor's phone number into the **Phone Number** field.
4. Type the course that the instructor teaches into the **Course** field.
5. When you have finished, choose **OK**.
