

**AddressPad**

**1.1.8**

**Zelig Ê**

**Freeware**

**Address Pad will help you manage addresses, phone numbers, email and homepage URLs of your friends without resorting to more complex (and cluttered) applications. Address Pad will fit nicely under your Apple menu along with the other desktop utilities provided with Mac OS. By default, Address Pad will also behave like a typical Apple menu application . <mailto:mailtozelig@bu.edu>**
