

Microsoft® Windows NT™

Beta March 1993

Hardware Compatibility List

The following computers and peripherals have passed Windows NT compatibility testing as of March 1993. This list is a subset of the hardware we expect to support in the final product and was current at the time it was published. If your hardware is not listed below, contact your hardware manufacturer for more information. We have not tested every computer and/or device in all possible configurations.

Updates to this list will appear in Library 1 of the WINNT forum (GO WINNT) or Library 17 of the MSWin32 forum (GO MSWIN32) on CompuServe Information Services.
