

PC Software Installer Instructions

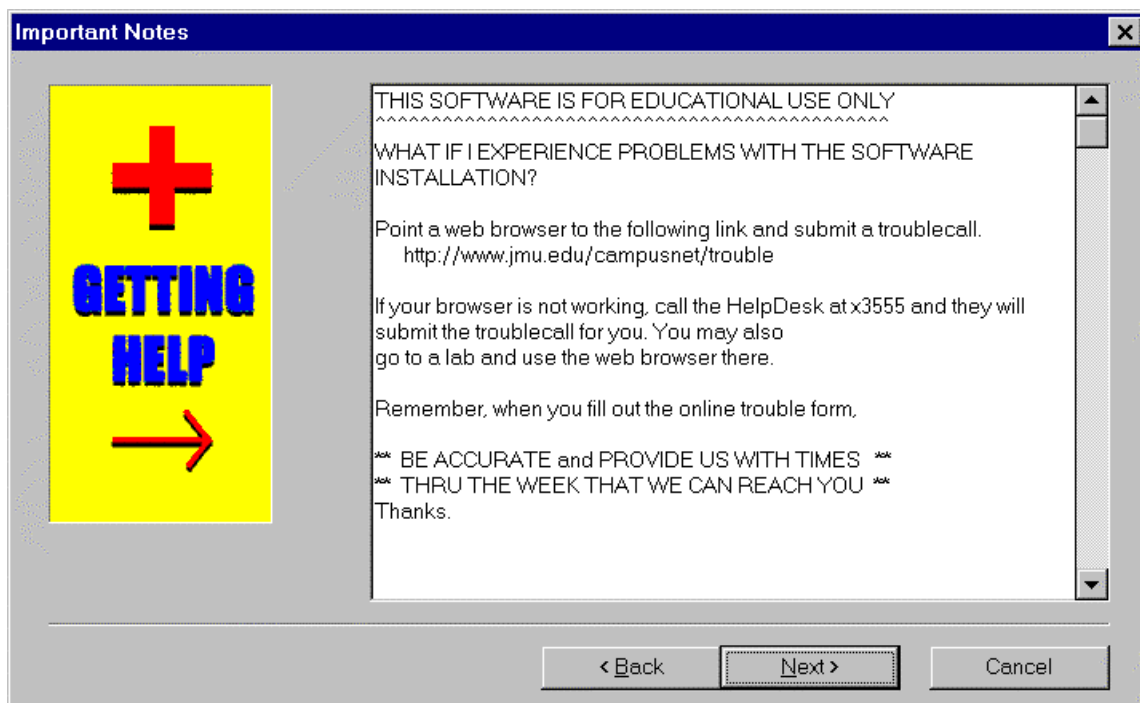

1. Double click on the CampusNet Icon then, click **NEXT** to continue.

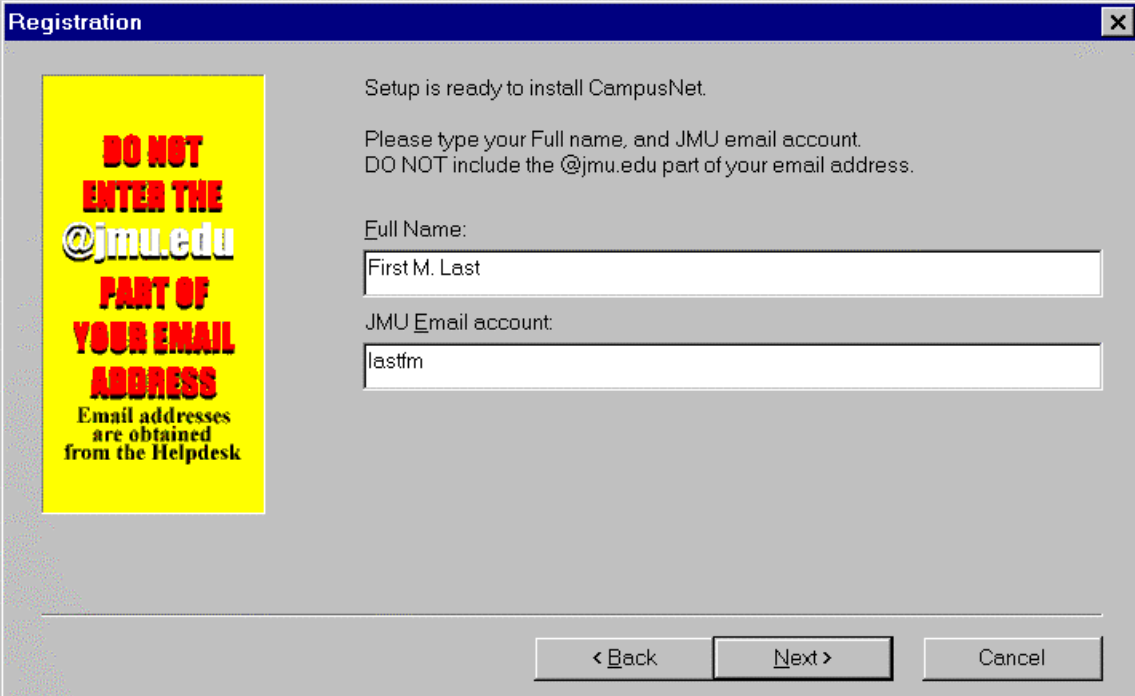

2. Close all other Windows programs and, then, click **NEXT**.

3. Please read and click **NEXT**.

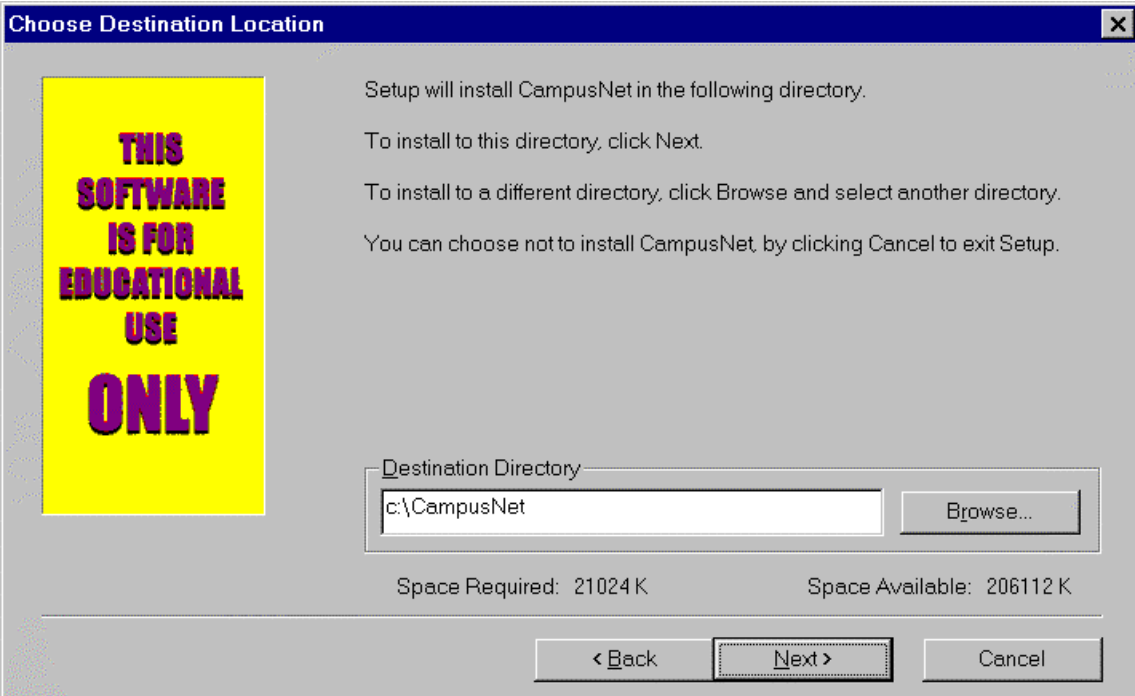

4. Put in your **full name** and your **JMU email account name** provided to you by the HelpDesk, x3555. Then, click **NEXT**.

The Registration window has a blue title bar with the text "Registration" and a close button. On the left is a yellow box with red and black text: "DO NOT ENTER THE @jmu.edu PART OF YOUR EMAIL ADDRESS" and "Email addresses are obtained from the Helpdesk". The main area is grey and contains the text: "Setup is ready to install CampusNet. Please type your Full name, and JMU email account. DO NOT include the @jmu.edu part of your email address." Below this are two input fields: "Full Name:" with the placeholder "First M. Last" and "JMU Email account:" with the placeholder "lastfm". At the bottom are three buttons: "< Back", "Next >", and "Cancel".

5. Click **NEXT** to install the software to the default location c:\CampusNet. If you would like to install to a different directory click **BROWSE**.

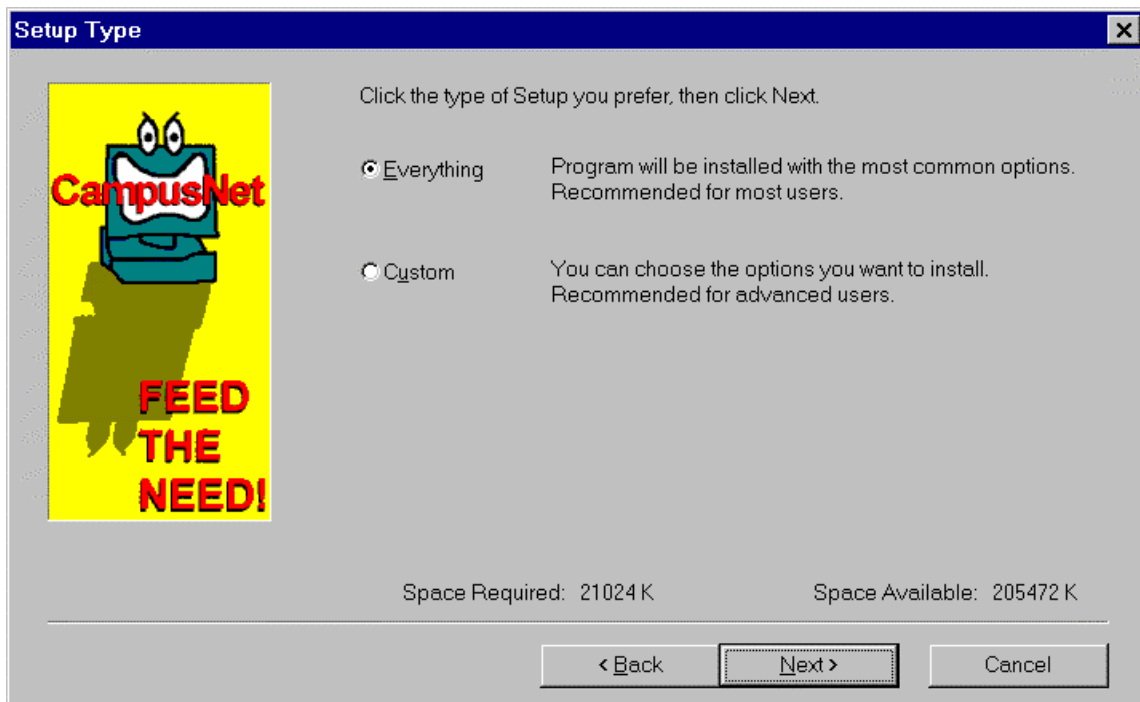

The Choose Destination Location window has a blue title bar with the text "Choose Destination Location" and a close button. On the left is a yellow box with purple text: "THIS SOFTWARE IS FOR EDUCATIONAL USE ONLY". The main area is grey and contains the text: "Setup will install CampusNet in the following directory. To install to this directory, click Next. To install to a different directory, click Browse and select another directory. You can choose not to install CampusNet, by clicking Cancel to exit Setup." Below this is a "Destination Directory" section with an input field containing "c:\CampusNet" and a "Browse..." button. At the bottom, it shows "Space Required: 21024 K" and "Space Available: 206112 K". At the very bottom are three buttons: "< Back", "Next >", and "Cancel".

By default, everything is selected and will be installed.
This software includes:

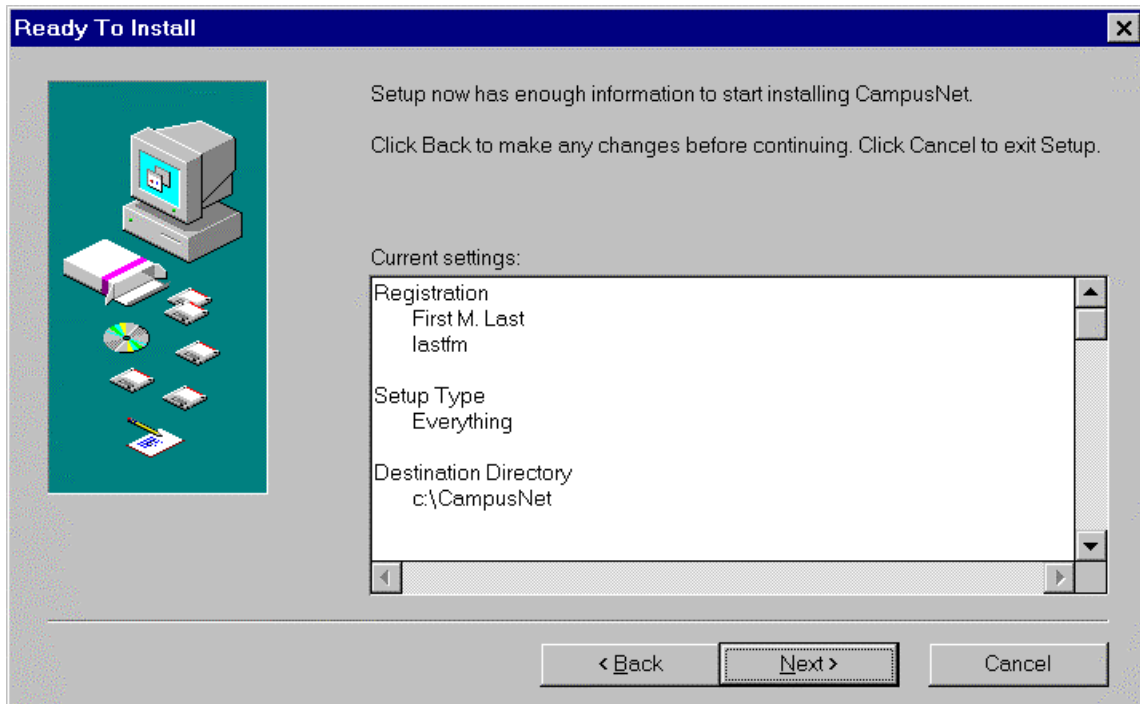

Simeon 4.1	7376 K
QVTNET Terminal 4.1	2712 K
WinVN	904 K
Ws FTP	400 K
Netscape Navigator 4.05	17152 K

*See page 6 for custom installation.

6. Click **NEXT** to continue.

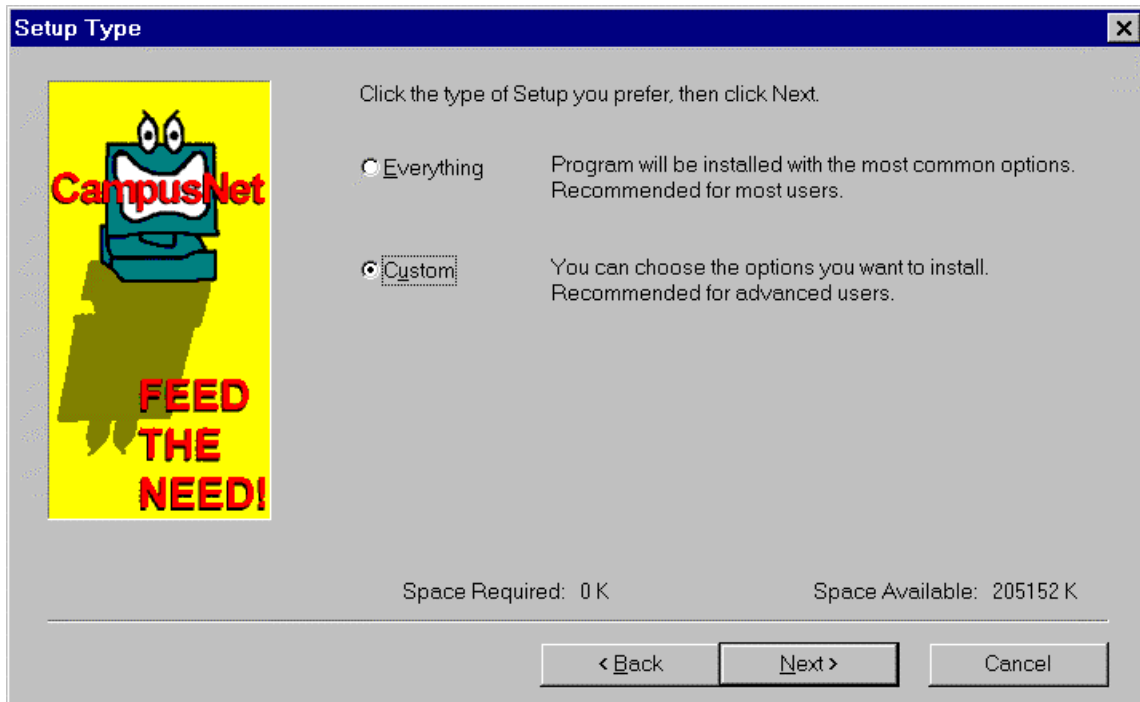

7. At this point, you are ready to start the install process. Click **NEXT** to begin.

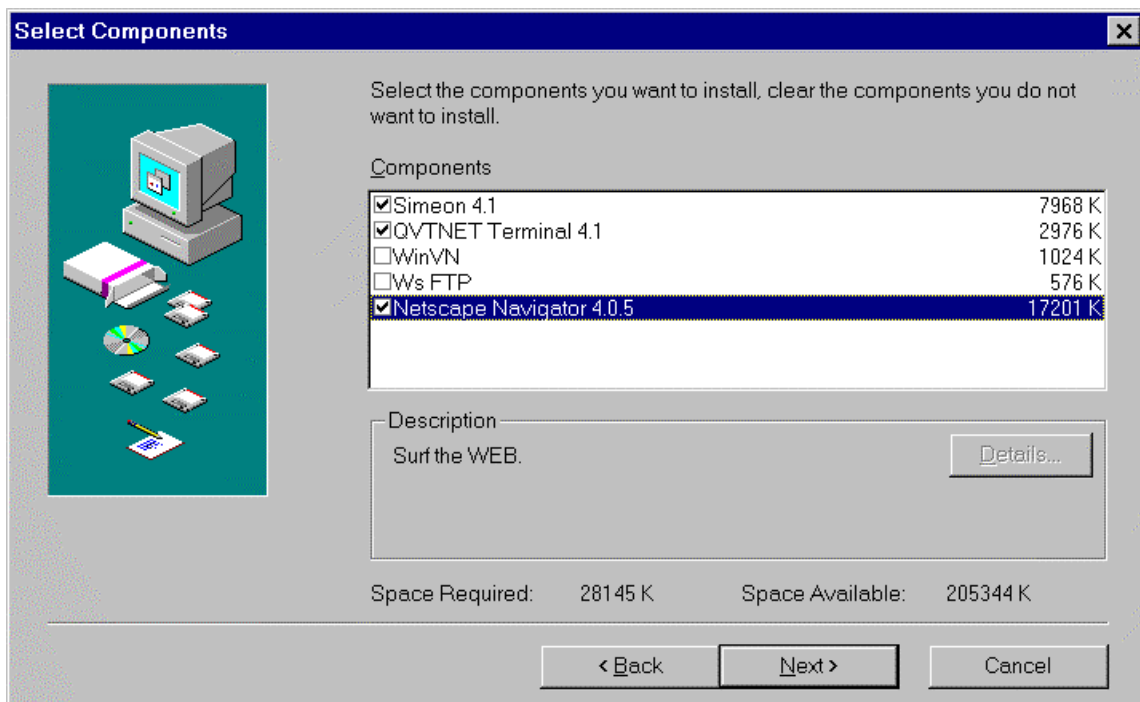

*Skip to page 7 if you are doing a default installation.

8. For a custom install, click **Custom** and Click **NEXT**.

9. Click on a package to select or deselect it. In this example the user wants Simeon, QvtNet, and Netscape. Click **NEXT** to begin the installation process.

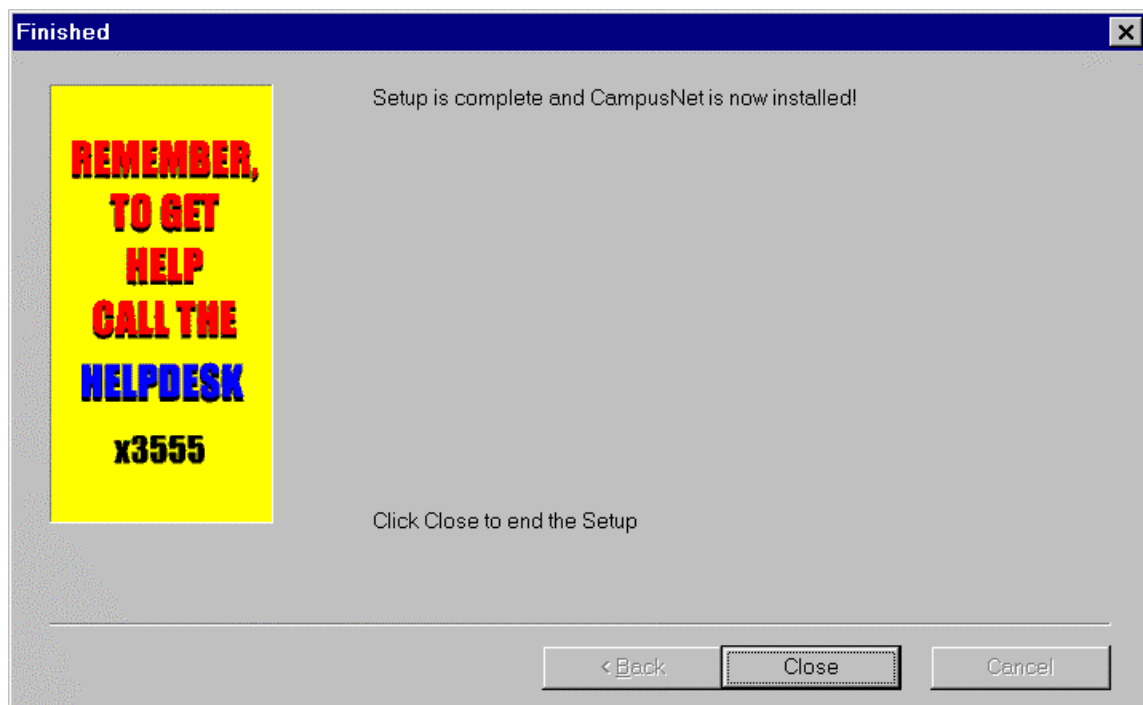

10. The following progress meter will be displayed during the installation:

11. If you have chosen to install Netscape, go to page 8.

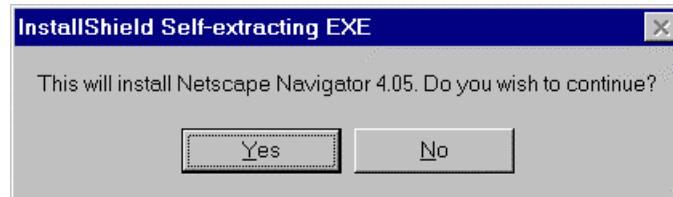

12. You have now finished your CampusNet installation.

Click **CLOSE** to exit the install process and begin using your Internet applications. From your Start Menu, you will find a new program group called CampusNet.

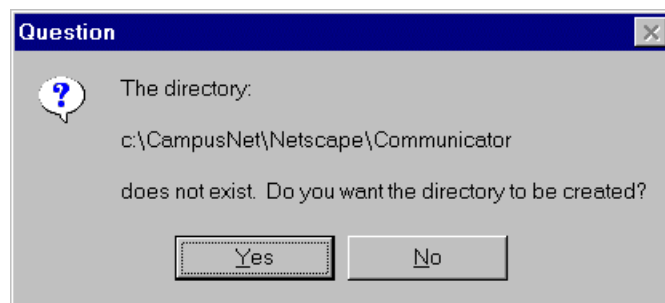

Netscape Installation

1. The following screen will prompt you to begin the installation:

Click **YES** to begin.

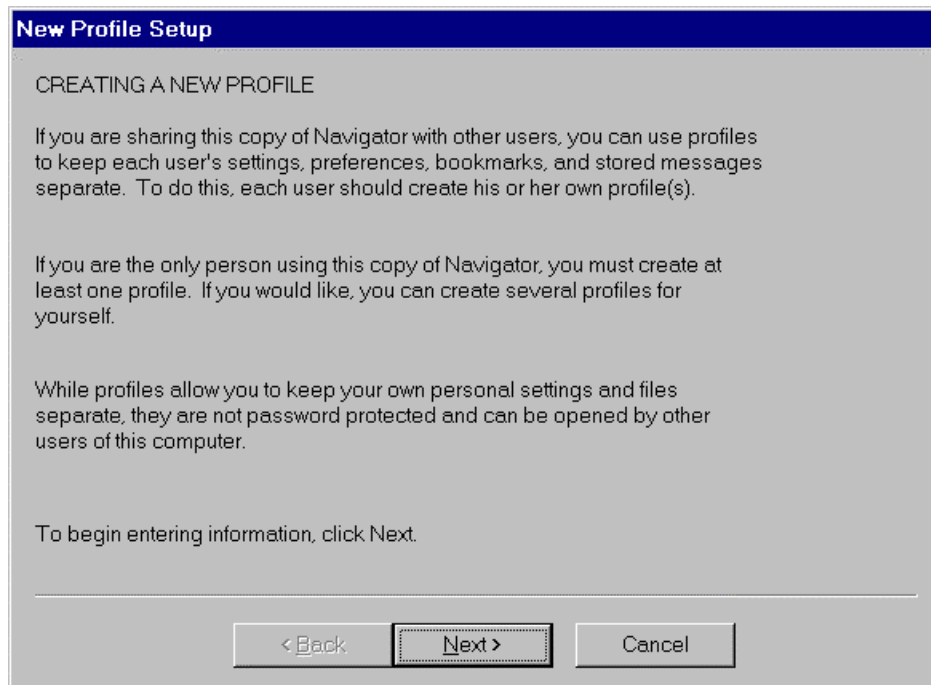

2. You will be prompted to create the program directory as follows:

Click **YES** to make the directory.

3. Press Enter to accept all further screens and once the installation is complete Click **CLOSE** to exit the install process and begin using your Internet applications. From your Start Menu, you will find a new program group called CampusNet and Netscape Navigator.

4. Once you start Netscape for the first time, you will be prompted with the following screens to create a User Profile:

New Profile Setup

CREATING A NEW PROFILE

If you are sharing this copy of Navigator with other users, you can use profiles to keep each user's settings, preferences, bookmarks, and stored messages separate. To do this, each user should create his or her own profile(s).

If you are the only person using this copy of Navigator, you must create at least one profile. If you would like, you can create several profiles for yourself.

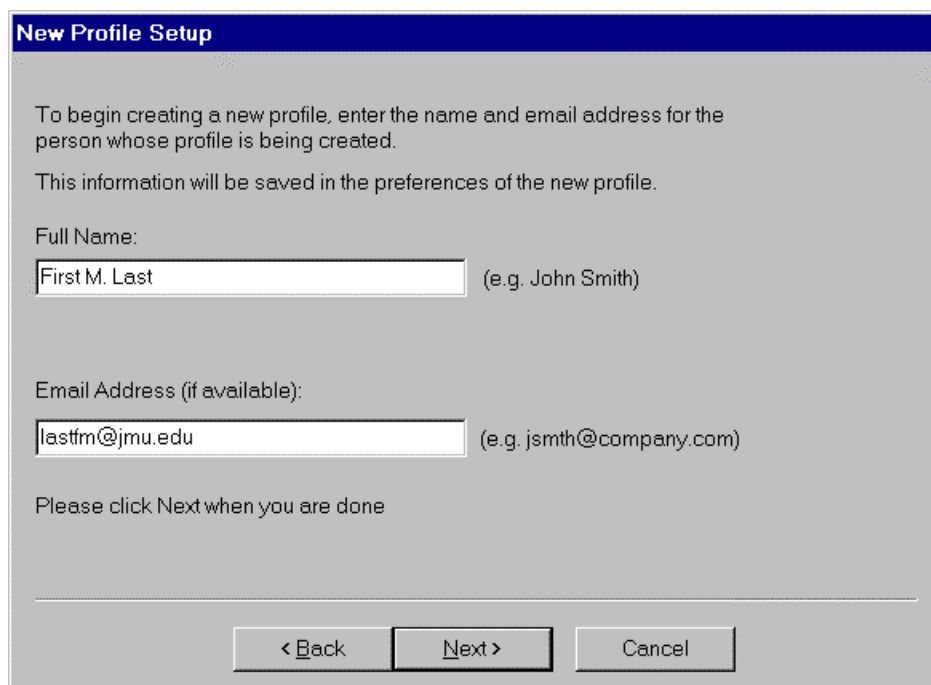

While profiles allow you to keep your own personal settings and files separate, they are not password protected and can be opened by other users of this computer.

To begin entering information, click Next.

< Back **Next >** Cancel

Click **NEXT** to continue.

5. Fill in your full name and your JMU email address. Click **NEXT** to continue. If you are unsure of your email address, contact the HelpDesk at x3555.

New Profile Setup

To begin creating a new profile, enter the name and email address for the person whose profile is being created.

This information will be saved in the preferences of the new profile.

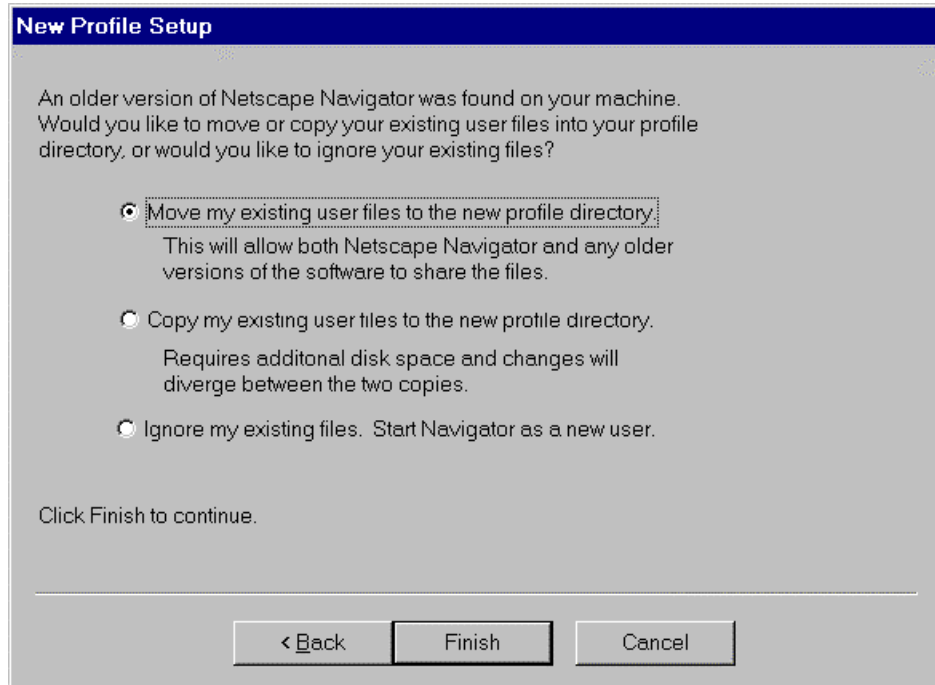

Full Name:
 (e.g. John Smith)

Email Address (if available):
 (e.g. jsmith@company.com)

Please click Next when you are done

< Back **Next >** Cancel

6. The next screen will give you the option to keep your old bookmarks from previous versions of Netscape that you may have used. If you would like to use the new JMU bookmarks that are installed by default, choose the **Ignore** option and click **FINISH** to start the program.

ALL DONE. Enjoy.
