### #27: Graphics Image File Formats

Revised by: Matt Deatherage  
November 1988

Written by: Steve Glass, Eagle Berns, Art Cabral,  
Pete McDonald & Rilla Reynolds October 1987

This Technical Note formerly described the file formats for Apple IIGS graphics image files. File formats are now documented in Apple II File Type Notes under corresponding file types and auxiliary types:

---

#### File Type \$C0

Auxiliary Type \$0000	“PaintWorks” Packed Format
Auxiliary Type \$0001	PackBytes Packed Format
Auxiliary Type \$0002	“Apple Preferred” Packed Format

#### File Type \$C1

Auxiliary Type \$0000	32K unpacked picture image
Auxiliary Type \$0001	Unpacked QuickDraw II picture

#### Further Reference
